JOHN H. WETHERBEE, }	

*John W. Griffin chosen by the Trustees and the Selectmen to fill vacancy caused by death of David C. Marr, until another is chosen in his stead by the town.

SELECTMEN'S REPORT.

FELLOW CITIZENS OF HYDE PARK :

The past year has been one of great importance to the town. The work of abolishing the grade crossings at Readville and changes in streets made necessary by it.

The erecting of a building for the Public Library.

The widening of parts of Hyde Park avenue.

The completion of several streets recently accepted.

These are all enterprises of great importance and great expense.

The Board of Selectmen present for your consideration the following as the annual report for the year ending January 31, 1899.

NEW STREETS.

In 1897 the town voted to accept Greenwood avenue, Westminster street, Huntington avenue, Easton avenue, Franklin Terrace and Garfield avenue. An appropriation was made and work commenced, but delayed on account of the winter season, and carried over to last summer for completion.

In September last the town voted to accept Norway Park, and appropriated \$1200 for the same.

It was constructed under the direction of the Superintendent of Streets and is well and substantially built.

All of the above mentioned streets have been laid out under the betterment law. Assessments have been made and many have already been paid.

STREET DEPARTMENT.

For the head of this important department the Selectmen re-appointed Mr. Henry M. Phipps, Superintendent of Streets. He has given general satisfaction and we regard him well qualified for the position.

The highway appropriation was the same as for the previous year, \$15,000, and as an exception to the custom of several years past, we did not ask the town for a second appropriation. The streets have been kept up to a good standard and many improvements have been made during the year. The Superintendent of Streets' report will be found on another page, which, for the first time, is made by him and separate from the Selectmen's report.

STREET WATERING.

During the past summer a new watering cart was purchased and assigned to the Fairmount district, making four carts in use in the town. The Superintendent of Streets had charge of the work, which was well done and within the appropriation.

STREET LIGHTS.

By vote of the town there have been added during the year five arc and two incandescent lights, making a total of 128 arc and 63 incandescent lights now furnished the town by the Hyde Park Electric Light Company under its ten-year contract.

TELEPHONE WIRES AND POLES.

In the early part of our term arrangements were made with the New England Telegraph and Telephone Company for the transfer of a portion of their wires to an underground system. During the summer conduits were laid through the centre of the town from Hyde Park avenue to Beacon street, with branches on the side streets. By our agreement with them the company constructed and bore all the expense of this change, and also give to the town the

free and exclusive use of one of the conduits for the fire alarm service. The company are now using the system and gradually removing the overhead wires.

INSPECTOR OF BUILDINGS.

Under the new By-Laws recently adopted by the town, the new office of Inspector of Buildings was created. The Selectmen appointed Mr. R. F. Boynton to that position. He entered upon his duties May 1, and has well and faithfully performed the work of this important department. His report will be found on another page of this book.

HYDE PARK AVENUE.

In response to a petition the County Commissioners visited the town last spring to view Hyde Park avenue, where the question of widening had been agitated for many years. They held public hearings in Hyde Park April 23 and June 25, 1898. A decree was issued July 26 ordering that Hyde Park avenue, from the Boston line to Metropolitan avenue, then 50 feet, be widened to 80 feet; and from the private way leading to the Hyde Park station of the N. Y., N. H. & H. R. R. to Pine street, then 50 feet, to 80 feet; also the rounding of the southeast corner of Hyde Park avenue and West River street. The decree called for the work to be completed Dec. 26, 1898.

At a town meeting held September 7 last, the town appropriated \$17,000 to pay for the land damages and construction; work was soon after commenced, and is now practically complete except part of the new bridge over Stony Brook, delayed by the unfavorable weather. We expect to complete it within the appropriation.

In the widening, land was taken from twenty different estates, and a settlement has already been made with most of the owners. The Selectmen have personally attended to this matter, and expect an early settlement with all without

the expense and delay of law. When all claims are settled, and the construction approved by the commissioners, the county of Norfolk is to pay to the town \$5908.

READVILLE GRADE CROSSINGS.

The work of abolishing the grade crossings at Readville and building the new bridge at Allen street has been pushed rapidly forward during the past year, and is now nearing completion. By the State Auditor's report it appears that for these changes there has been expended in Hyde Park to Nov. 1, 1898, about \$600,000, and it is estimated that when completed the cost will be about \$1,000,000, exclusive of land damages. According to the Act of Legislature the town's proportion is 13 1-2 per cent., divided into annual payments covering 20 years. The first payment is due in 1899. Realizing the great importance of this work and the large expenditure involved, experts have been employed by us to protect the town's interests.

TOWN PROPERTY.

In June authority was voted the Selectmen to sell the Thatcher street land. As no offer satisfactory to the Board was received, no sale was made. The stone crushing plant is in good condition and has done satisfactory work during the year. About 200 tons of crushed stone are now on hand. The steam roller has been of great benefit to the town in completing the new streets. Two new cars were purchased this year and an addition built to the carriage shed of the street department. The valuation of the town property is about the same as given in the inventory of last year.

TOWN ROOMS.

The increase in town business and accommodations needed for our new officials, Superintendent of Schools and Inspector of Buildings, made it necessary to have additional

room in Union Block. Rooms were rented and fitted up for town purposes. The vault for the storage of the town records is now inadequate to the needs, and we call the attention of the town to the necessity of providing additional vault room for the proper arrangement and protection of the town records, as required by law.

POLICE DEPARTMENT.

The Selectmen reappointed James McKay as Chief of Police and the patrolmen of last year, all of whom have rendered the town efficient service and to the satisfaction of the Board. The Chief's report in detail will be found on another page.

FIRE DEPARTMENT.

The Board appointed as Engineers Benjamin Rafter, J. C. McDougald and John H. Wetherbee, and under their able management the department is in a most satisfactory condition, always ready to promptly respond and faithfully perform the difficult work whenever summoned. The report of the Engineers, with a list of the fires, will be found on another page.

ACTIONS AT LAW.

Lomelia A. Bickford, admrx. of the estate of Levi B. Bickford, *vs.* Town of Hyde Park. Action to recover taxes paid by deceased on real estate on East River streets, not owned by deceased, more fully described in last Town report, was argued at the November sitting of the Supreme Judicial Court. No decision has been rendered.

Lomelia A. Bickford *vs.* Town of Hyde Park.

Petition that she be awarded damages for the injuries to her premises and well thereon, more fully described in last Town report, was tried at the May sitting of the Superior Court at Dedham, and a verdict ordered for the Town. The plaintiff's exceptions to the Court's rulings were argued at

the November sitting of the Supreme Judicial Court on questions of law. No decision has yet been rendered.

Emily R. Hawes vs. Town of Hyde Park.

Petition returnable, Norfolk Superior Court, August, 1898, that she be awarded damages for injuries done to her premises and to a well thereon by reason of the construction of a sewer on Dana avenue. This petition is still pending.

Mary A. White vs. Town of Hyde Park.

Action of contract to recover \$1000, more fully described in last Town report, was tried at the May sitting of the Superior Court at Dedham, and a verdict returned by the jury for the Town. Plaintiff filed a motion for new trial and same was overruled by the Court after hearing and judgment has been entered on the verdict.

Daniel A. Murray vs. Town of Hyde Park.

Susan M. Harlow vs. Town of Hyde Park.

Willam H. Tooher vs. Town of Hyde Park.

Draxanna Fairbairn vs. Town of Hyde Park.

Four land damage petitions described in the last Town report, all growing out of a decree of the County Commissioners, were settled in November, 1898, by filing a disclaimer and upon payment to petitioners of taxable costs.

Patrick Hayes vs. Town of Hyde Park.

Action of tort, claiming damages in \$2000 by reason of plaintiff falling over a rail on Walnut street, more fully described in last Town report, was tried at the October sitting of the Superior Court at Dedham, the jury returning a verdict for the Town.

November 12, 1896, betterment petitions were filed in Norfolk Superior Court by the following named persons, appeals from assessments on account of the construction of Warren avenue and Highland street, more fully described in last Town report :

George S. Lee, Trustee	Antoinnette N. Higgins
Warren S. Hill	Fannie M. Frost
Bessie L. Alden	Fred A. Foster
Stuart F. Weld	Edward P. Church
	Warren avenue.
Alfred Foster	Carrie L. V. White
Helen Bryant	Frank E. Bowie
Lydia M. Hatch	
	Highland street.

These cases have been settled by compromise pursuant to the direction of the Selectmen.

Mary A. E. Murphy *vs.* Town of Hyde Park.

John J. Loud *vs.* Town of Hyde Park.

Are petitions for land damages on account of the construction of Westminster street.

These petitions were entered in the Superior Court in November, 1898, and are now pending.

Eliza G. Washburn *vs.* Town of Hyde Park.

Maria A. Eustis *vs.* Town of Hyde Park.

Jennie F. Hurter *vs.* Town of Hyde Park.

Mary M. Bursch *vs.* Town of Hyde Park.

Four land damage petitions returnable Norfolk Superior Court, November, 1898. Petitioners claim damages on account of constructing a town sewer through their land near the Neponset river in the Fairmount district. These petitions have been referred to Charles A. Williams, Esq., of Brookline, as auditor.

Forty-nine other petitions were brought, and are now pending in the Superior Court for Norfolk County, against the Town, for the purpose of determining the amount of damages to the petitioners' real estate on account of the abolishment of grade crossings. Under the provisions of the statute the Town pays 13 1-2 per cent., and the Commonwealth and the Railroad the remainder of the expense of

the abolishment of the grade crossings at Readville and the extension of Glenwood avenue. All petitions on account of change of grade and extension of street have been referred to Charles A. Williams, Esq., of Brookline, and Daniel C. Linscott, Esq., of Boston, as auditors.

The construction and extension of Glenwood avenue across the N. Y., N. H. & H. R. R. and the improvements in relation to the abolishment of grade crossings necessitated the taking of land from the following named persons. Petitions were brought in the Superior Court in the name of the Town for the purpose of determining the amount of the damage to which each respondent is entitled :

James Nolan	George Whitcomb
James Collins	John P. Dunn
Patrick Gilmartin	Susan Mullen
Rebecca B. Slafter	Timothy Burns
Dennis Burns	

The cases of Collins, Gilmartin, Dunn, Whitcomb and Mullen were settled without trial, amounts being agreed upon. The cases of Timothy Burns and Dennis Burns were heard by the auditor. Timothy Burns desired a jury to pass upon his case, and it was heard at the January, 1899, sitting, the jury assessing damages at \$1839, which includes interest. The case of Slafter is pending before the auditor, but has not been heard. The case of Nolan has been heard by the auditor, who assessed damages in \$621.61, including interest.

George S. Lee, Tr., *vs.* Town of Hyde Park.

George S. Lee, Admr., *vs.* Town of Hyde Park.

Lola B. Page *vs.* Town of Hyde Park.

James S. Coveney *vs.* Town of Hyde Park.

Lemuel B. French *vs.* Town of Hyde Park.

Real Estate & Building Co. *vs.* Town of Hyde Park.

Petitions for damages by decree of County Commissioners in December, 1896, relocating and changing grade of Hyde Park avenue. The cases of French and Coveney have been disposed of by payment of petitioners' taxable costs. The other four cases are still pending.

Inhabitants of Hyde Park *vs.* Commonwealth of Massachusetts.

To the taking in 1894 by the Metropolitan Park Commissioners of about 10 acres of land within the Stony Brook Reservation, more fully described in previous town reports. This case was entered for trial. The Selectmen called a town meeting for instruction, and it was voted that they accept \$500 per acre for the same, which they have done.

In conclusion we call attention to the several assessments for Metropolitan improvements; payments have been made on the High level sewer, for the Metropolitan Water District, and the Metropolitan sewer.

Respectfully submitted,

FRANK B. RICH,
STILLMAN E. NEWELL,
EDWARD Q. DYER,
JOHN JOHNSTON,
FRED Y. FRENCH,

Selectmen of Hyde Park.

SYNOPSIS OF THE TOWN CLERK'S RECORD OF TOWN MEETINGS.

The following statement shows *in a condensed form* the action of the town on the various articles which have been before it for consideration the past year.

FEBRUARY 2, 1898, a Town Meeting was held in Casino Hall, when the following articles were acted upon :

ART. 1. To choose a moderator to preside at said meeting.

Charles G. Chick, Esq., was chosed moderator.

ART. 2. "To see if the town will vote to increase the number of the School Committee from six, as now constituted, to nine, by adding one to each class to hold office according to the tenure of the class to which they are severally chosen."

Voted to so increase.

ART. 3. "To see if the town will ratify the vote passed by it December 15, 1897, providing for the issue of bonds for Public Library purposes, to the amount of \$25,000, and will authorize the issue thereof accordingly, and to take any other action with regard to such bonds or the issue and proceeds thereof."

Voted to so ratify and authorize; and "that treasurer be also authorized and instructed to pay over the entire proceeds of said bonds for the purposes authorized by said vote."

Adjourned.

MARCH 30, 1898, a Town Meeting was held in Waverly Hall, when the following Articles were acted upon, viz. :

ART. 1. To choose a moderator to preside at said meeting.

Charles G. Chick, Esq., was chosen moderator.

ART. 2. To see if the town will accept the list of jurors as prepared by the Selectmen and posted according to law.

The list was amended and accepted.

ART. 3. To hear the report of the Selectmen in regard to guide boards, and act thereon.

Report made and accepted.

ART. 4. To see what disposition the town will make of the money received from dog licenses for the year 1897.

To the public library for purchase of new books.

ART. 5. To see what compensation the town will vote to pay for collecting its taxes the current year.

Same as last year. (1 per cent.)

ART. 6. To fix the salaries of the town officers for the current municipal year.

Board of Health, \$25 each; no salary voted for School Committee; all other officers same as last year.

ART. 7. To determine what compensation shall be allowed the Clerk of the Board of Sewer Commissioners for the ensuing year.

Six hundred dollars allowed.

ART. 8. To fix the compensation of the engineers and the several members of the fire department, for their services the current municipal year.

Chief Engineer, \$150; two Assistants, \$75 each; four permanent men (to include one at Readville), \$700 each; Call Men, \$50 each.

ART. 9. So see what discount the town will vote to allow on all taxes paid on or before October 1, 1898; and

what interest the town will vote to charge on taxes for the current year, when the same shall be overdue.

No discount; interest at rate of six per cent. per annum on overdue taxes.

ART. 10. To see if the town will appropriate one hundred and fifty dollars to Post 121, Grand Army of the Republic, for the expense of decorating the graves of deceased soldiers.

So appropriated.

ART. 11. "To see what sum the town will appropriate for the celebration of the 'Fourth of July,' 1898."

\$250 appropriated therefor.

ART. 12. To see if the town will appropriate the money now in the hands of the Treasurer, received by him as sidewalk, street or Board of Health assessments or betterments, and all money which shall be received by him the current year on account of such assessments or betterments, for the purpose of constructing or repairing public ways.

So appropriated.

ART. 13. To see if the town will appropriate the money to be received this year by the Town Treasurer, for or on account of Corporation and National Bank Taxes, for the payment of the fire hydrant service of the town.

So appropriated.

ART. 14. "To see if the Town will vote to appropriate a sum not exceeding Two Thousand Dollars (\$2,000) for park purposes."

Indefinitely postponed.

ART. 15. To see if the town will authorize its Selectmen to contract with the Hyde Park Electric Light Co., for the remainder of the term of our Street Lighting contract, for one arc light to be placed on Huntington avenue, between River and Westminster streets.

So authorized.

ART. 16. "To see if the town will authorize and instruct the School Committee to appoint a Superintendent of Schools."

So authorized and instructed. Yes 257; No 13.

ART. 17. To see what amount the town will vote to raise by taxation, to meet the expenses of the town the current year, the deficiencies of last year, and the notes and bonds of the town maturing the present year, and how the same shall be appropriated.

Voted to raise by taxation the current year the sum of One hundred fifty-three thousand five hundred sixty-five dollars, and to appropriate the same as follows:

Support of Schools:

For Salaries and Fuel, ...	\$39,840 00	
" Incidentals, ...	5,300 00	
" Text Books and Supplies, ...	4,250 00	
" Evening Schools, ...	700 00	
" Industrial Schools, ...	200 00	
		\$50,290 00
For Bonds and Notes maturing		\$10,600 00
" Interest, ...		9,000 00
" Highways, ...		15,000 00
" Street Watering, ...		2,500 00
" Incidentals, ...		9,500 00
" Police, ...		7,500 00
" Fire Department, ...		9,075 00
" Overseers of Poor, ...		6,500 00
" Street Lights, ...		8,850 00
" Public Library, ...		3,000 00
" Salaries, ...		2,950 00
" Board of Health, ...		4,000 00
" G. A. R. Post, ...		150 00
" Insurance, ...		800 00
" Fourth of July		250 00
Voted in 1897, and payable in 1898, ...		13,600 00
		\$153,565 00

ART. 18. To see if the town will ask permission of the General Court of Massachusetts to issue bonds, notes or

script to the amount of One Hundred Thousand Dollars (\$100,000.00) under the provisions of the Acts of 1896, Chapter 287, Section 9, in addition to the amount provided for by said Section.

Sewer Commissioners authorized to ask for such permission.

ART. 19. To see if the town will make and adopt By-Laws relating to Truants and Neglected Children.

On motion of Mr. E. I. Humphrey the following By-Law was adopted:— 'Habitual truants and children between seven and fifteen years of age who may be found wandering about in the streets or public places in the town, having no lawful occupation or business, not attending school, and growing up in ignorance, and such children as persistently violate the reasonable rules and regulations of the public schools, shall be committed to the Union Truant School at Walpole as a place of confinement, discipline and instruction, or to such other place as may now or hereafter be provided by law.'

ART. 20. To see if the town will vote to choose its Park Commissioners by ballot.

Voted so to choose them.

ART. 21. To see if the town will authorize its Collector of Taxes to use all means of collecting the taxes which a Town Treasurer, when appointed a collector may use.

So authorized.

ART. 22. To see what amount the town will authorize its Treasurer to borrow, in anticipation of the tax to be levied the current year.

Authorized to borrow \$90,000 in anticipation of taxes, with approval of the Selectmen.

ART. 23. To see if the town will authorize its Treasurer with the approval of the Selectmen, to borrow money to renew or replace any loan or loans.

So authorized.

Adjourned at 9.13 P. M.

JUNE 22, 1898, a Town Meeting was held in Casino Hall, when the following Articles were acted upon :

ART. 1. To choose a moderator to preside at said meeting.

Charles G. Chick, Esq., was chosen moderator.

ART. 2. "To see what action the town will take with reference to the purchase of additional land between the Hoogs lot, so called, and Everett street, on or near the corner of Everett street and Harvard avenue, for the site for the Public Library building, and to appropriate money for the purchase of the same, and to authorize the issue of the bonds or notes of the town in payment for same."

The Trustees of the Public Library were authorized to purchase this land at a price not exceeding \$6500, and said amount was appropriated therefor, to be raised by taxation next year.

ART. 3. To see if the town will vote to issue any bonds, notes or script, and fix the amounts, times of payment, and rate of interest thereof and thereon, and the form thereof, pursuant to the provisions of Chapter four hundred and nineteen of the Acts and Resolves of the General Court of Massachusetts for the year 1898, the same being entitled "An Act to authorize the town of Hyde Park to incur additional indebtedness for sewerage purposes," and pass any votes relating thereto.

Voted to issue bonds to the amount of \$100,000 of the denomination of \$1000 each, bearing interest at the rate of 4 per cent. per annum, payable in lawful money of the United States, as follows:—Four bonds payable each year for sixteen years from date of issue, and three bonds payable each year for twelve years next following said sixteen years, the loan covering a period of twenty-eight years. Proceeds of sale of bonds to be applied to defraying expenses incurred in extending the sewerage system in this town. (The vote stood 64 Yes; 14 No.)

ART. 4. To see if the town will vote to borrow any money pursuant to the provisions of said Chapter 419, or of Chapter 287, of the Acts and Resolves of the General Court of this Commonwealth for the year 1896, the same being "an act to authorize the town of Hyde Park to construct

a system of sewerage and to provide for the payment therefor.

Treasurer authorized to borrow not exceeding \$75,000 in anticipation of the proceeds from sale of bonds authorized under Article 3, above.

ART. 5. To see if the town will authorize its Selectmen to contract with the Hyde Park Electric Light Co., for the remainder of the term of our Street Lighting contract, for one arc light to be placed on the corner of Neponset avenue and Summit street.

So authorized.

ART. 6. To see if the town will authorize its Selectmen to sell at private sale or public auction, a lot of land situated on southerly side of Thatcher street, in this town, and known as the "gravel lot," the unused hose house being now thereon, and authorize its Selectmen to sign, seal, acknowledge and deliver in its name and behalf, proper deed or deeds to convey the same to the purchaser of said land.

So authorized.

ART. 7. To hear the report of the Selectmen laying out Norway Park between Summit street and Warren avenue, as a public town way, and to see if the town will accept and allow said laying out, with the boundaries and admeasurements of said way, as shown by report, plan and profile now on file in the town clerk's office, and appropriate money to construct the same.

Report presented and accepted. The layout was allowed and the sum of \$1200 appropriated to construct said street; said amount to be raised by taxation next year.

Adjourned at 9.26 P. M.

SEPTEMBER 7, 1898, a Town Meeting was held in Casino Hall, when the following Articles were acted upon:

ART. 1. To choose a moderator to preside at said meeting.

David W. Murray, Esq., was chosen by ballot.

ART. 2. To see if the town will vote to raise and appropriate a sum of money sufficient to carry into effect the decree of the County Commissioners, dated July 26, 1898, relocating Hyde Park avenue.

\$17,000 appropriated for this purpose, the same to be raised by taxation in 1899.

ART. 3. To see if the town will authorize its Selectmen to contract with the Hyde Park Electric Light Co., for the remainder of the term of our Street Lighting contract, for two arc lights; one to be placed near the corner of Garfield avenue and Water street, and one near the corner of Warren avenue and Beacon street.

So authorized.

ART. 4. To hear the report of the committee appointed Dec. 15, 1897, to consider the abolishment of the grade crossing of Fairmount avenue and the New England Railroad.

Report of "progress" made and received. Report recommends that town do not "take the initiative in the abolishment of said crossing, at the present time."

ART. 5. "To see if the town will authorize its Board of Health to make and enforce in this town such regulations as said Board may deem necessary for the safety and health of the people with reference to house drainage and its connection with public sewers where a public sewer abuts the estate to be drained."

So authorized.

ART. 6. To see what names, if any, the town will give to the following "Squares" so called: One at the junction of Central avenue, Greenwood avenue, Westminster street and Metropolitan avenue; and one at the junction of Hyde Park avenue and West River street.

The first square mentioned in this Article to be called "Greenwood square;" and the last square mentioned therein to be called "Cleary square."

Adjourned at 8 45 P. M.

NOVEMBER 30, 1898, a Town Meeting was held in Waverly Hall, when the following Articles were acted upon :

ART. 1. To choose a moderator to preside at said meeting.

David W. Murray, Esq., was chosen by ballot.

ART. 2. To see if the town will vote to transfer to the incidentals the unexpended balance of the street watering appropriation.

So transferred.

ART. 3. To see if the town will raise and appropriate an additional sum for police.

\$500 appropriated to be taken from money in the treasury received from fines in criminal cases.

ART. 4. To see if the town will authorize the Selectmen to contract with the Hyde Park Electric Light Company for the remainder of the term of our Street Lighting contract for lights to be placed as follows :

One arc light on Summit street, between Milton avenue and Fairmount avenue.

One incandescent light on Wood avenue.

One incandescent light on Fairmount avenue, between Summit street and Prospect street.

So authorized.

ART. 5. To see if the town will authorize its Selectmen to contract with the Hyde Park Water Company for the remainder of the term of the town's contract with said Company for a fire hydrant to be located near Cleary square.

So authorized.

ART. 6. To see what action the town will take in relation to case entitled "inhabitants of Hyde Park vs. Commonwealth," pending in Superior Court, Norfolk County, for the value of about ten acres of land in what is known as

“Happy Valley,” taken by the Metropolitan Park Commissioners as a part of the Stony Brook Reservation.

Selectmen instructed to accept the offer of \$500 per acre, made by the defendant in this case.

Adjourned at 10 P. M.

A NEW BY-LAW.

By-Law, adopted by the town since the publication of the By-Laws in the “Town Report” of last year :

Habitual truants and children between seven and fifteen years of age who may be found wandering about the streets or public places in the town, having no lawful occupation or business, not attending school, and growing up in ignorance, and such children as persistently violate the reasonable rules and regulations of the public schools, shall be committed to the Union Truant School at Walpole, as a place of confinement, discipline and instruction, or to such other place as may now or hereafter be provided by law.

The foregoing By-Law was adopted by the said town of Hyde Park, at a meeting of its legal voters held in Waverly Hall, in said town, March 30, A.D., 1898, and was approved by the Superior Court for the County of Norfolk, on May 23, A. D., 1898.

Attest :

HENRY B. TERRY, Town Clerk.

REPORT OF SUPERINTENDENT OF STREETS.

TO THE HONORABLE BOARD OF SELECTMEN:

Gentlemen—I herewith submit my report for the year ending January 31, 1899.

During the year there have been extensive repairs made on many of our streets. Good material was obtained from the town stone crushing plant; 4500 feet of new paved gutters have been laid and 1800 feet of old gutters relaid. I recommend that the work of repairing old gutters be continued as many are in very bad condition, and I also suggest more new ones. Twenty-two new cross-walks have been put down in various parts of the town. We have constructed four new catch-basins and rebuilt several of the old ones which were found too small to take care of the water.

There were about 450 feet of edge stone set and new sidewalks constructed. Nineteen new iron sign posts have been erected to replace the old wooden ones. One new push cart was purchased, making two in use during the summer. They have done good work keeping the papers and rubbish out of the gutters. I recommend the extension of this service. The water carts, double and single carts, and stone jigger are all in first-class repair. The five horses in this department are in excellent condition.

Respectfully submitted,

HENRY M. PHIPPS,
Superintendent of Streets.

SIXTH ANNUAL REPORT OF THE PARK COMMISSIONERS.

1. We do not recommend the appropriation of any money for park purposes this year, for the reason that the taxes must necessarily be large owing to the appropriations already made for the public library and for widening Hyde Park avenue.

We feel it proper to ask, however, that any sum of money which may be paid to our town by the Metropolitan Park Commission for land taken, shall be appropriated to park purposes. We had an appropriation in 1894 of two thousand dollars, which is all we ever had; and of that, there is now an unexpended balance of \$1571.35.

The expenses of the Board the past year, as usual, have been light. Our hearings have been held in the Selectmen's room, and our usual meetings at the house of one of the members, and, consequently, we have had no rent to pay, and the custom of permitting the Chairman and Secretary to defray all the expenses for stationery and postage has again prevailed. Members also have, as usual, either walked or paid their own car fare when travelling upon business in relation to parks or trees on public grounds.

Many meetings have been held and much labor performed since this Board was first organized. We have never had any salary. Our present Secretary has, free of charge, even posted notices of hearings in seven public places and one on each tree which petitioners desired to cut. While we have been willing to look over the town roads to ascer-

tain just where limbs ought to be cut on shade trees, not being furnished with an axe, either public or private, we have been obliged to hire a man to trim a few trees, and have also paid for copying for publication the stenographic report of the admirable speech of Mr. de Las Casas, Chairman of the Metropolitan Park Commission, delivered at Hyde Park on September 22, 1898. The total expenditure of the past year has been fifteen dollars.

2. We have had before us during 1898 five petitions for permission to cut shade trees. In every case the statutory notices were given and a public hearing held. In all but one case it was clear to the Board that the petitions should be granted.

The Selectmen asked leave to cut a tree on Dana avenue, and one of our Board took pains to see the residents living in that neighborhood about it, and yet only one person appeared in opposition at the hearing, and he, after listening to the evidence of the petitioners, concluded that it was best to permit the cutting of the tree rather than to impede the work of the Selectmen, who proposed to pave the gutters if the tree was cut. However, after permission was granted by a majority vote of the Board, a petition was started in that vicinity asking that the tree should not be removed. But the tree was cut before any remonstrance was fully prepared, and therefore neither our Board nor the Selectmen were officially informed of the character or weight of the objections. This shows the necessity of attending the public hearings if any one has objections to the cutting of a tree. The Board has to act on the evidence before it, but invites the fullest discussions at all its hearings.

3. The Metropolitan Park Commissioners have taken all the land in Hyde Park necessary for a parkway connecting Stony Brook Reservation, by way of Paul's Bridge, with the Blue Hills. It has always seemed to us that this ought to

have been done in connection with the abolition of grade crossings at Readville, and we urged this in all proper ways ; but, as it was not then done, we commend the taking of the land (most of which is not valuable), and hope that, at some time, the way will be constructed.

The Metropolitan Park Commission have also constructed a road through Stony Brook Reservation, commencing at Brainard street in Hyde Park, and ending at Washington street, Boston. The work is well done and we find here just such a use of money as the public like to commend. This furnishes to our town another very delightful walk or drive.

4. From its inception this Board has favored a parkway along the banks of the Neponset river. Last spring, by invitation of Dr. Samuel A. Tuttle, our Representative in 1898, the Metropolitan Park Commission and the Committee on Metropolitan Affairs of the Legislature, came out to look over the situation in connection with the Blue Hills, the Neponset river and the Canton meadows. With many of our citizens, we joined with Dr. Tuttle in urging upon the Committee on Metropolitan Affairs the importance of this work. The Committee was convinced of the necessity of taking the banks of the Neponset river, from the standpoint of health, and of the value of a boulevard along its borders which were made beautiful by the Creator, but are marred at some points by the handiwork of man.

Upon the recommendation of the Committee, a general appropriation of one million dollars was made, having in view the expenditure of several hundred thousand dollars of it along the Neponset. Many of our citizens united in inviting the Chairman of the Metropolitan Park Commission and others to address us upon this and kindred subjects. It is no disparagement to the other able speeches made at the time of the public meeting held in response to this in-

vation, to say that his speech placed the subject before us in a clear, forcible and practicable way and ought to be read by all our citizens. We append to this report extracts relating to the Neponset river, and regret that there is not room for the whole speech.

While the construction of this proposed boulevard will cost something, it will increase the value of land which it will develop, and cause buildings to be put up so that we shall at once begin to realize upon the investment. We heartily favor the taking of the land now and the construction of the roadway in the near future.

The Metropolitan Park Commission have manifested a strong desire to undertake this work in accordance with the spirit of the appropriation, but, at the same time, are unwilling to pay exorbitant prices for the land needed. They have prepared a plan of all the land they desire along the banks of the Neponset, and have prepared for each owner a description and a plan of his land which they wish to purchase, and have requested them to give them an option. Some of the owners have been generous, and most of them have only asked such prices as they would expect from their neighbors for the same land. In a few cases, no option has been given. We feel that this is an improvement which is very desirable for Hyde Park and Boston, as well as necessary to a proper completion of the parkways uniting the Boston Park System to the Blue Hills.

The trial at Dedham of a case brought to determine the value of certain land taken in Stony Brook Reservation, tends to prove that Norfolk juries will not burden the Commonwealth with exorbitant claims for damages where land is taken for public use, and a recent decision of a jury in relation to land taken in Milton for park purposes seems to confirm this idea. We, therefore, hope that the Metropolitan Park Commission will take the land along the Ne-

ponset by the right of eminent domain, and where owners ask too much, will bring it before a jury to fix a fair price. At the same time, we hope that all the owners will finally be willing to accept what is reasonable and thus aid the town and the Commonwealth to improve and make attractive the community in which we live.

EXTRACT FROM SPEECH OF WILLIAM B. de LAS CASAS
CHAIRMAN OF METROPOLITAN PARK COMMISSION, DE-
LIVERED IN HYDE PARK, MASS., SEPTEMBER 22, 1898.

Last year the Metropolitan Park Commission recommended that provision be made for acquiring lands in addition to those on Charles river, for those on Mystic and Neponset rivers, considered as spots of particular beauty. If only the shores of one such place were to be provided, naturally the Charles river is the first river in the district; naturally the Commission reported and said that that must be attended to first. Everybody acquiesced in that and recognized it, just as they did when we said: If there is to be but one beach, when all considerations are taken into account, Revere Beach is the beach which can be most easily reached, which is the best when you get to it and can be of use to the largest number of people. But the Commission last year went to the Legislature and said that "If the work is to go any farther they recommend that provision be made to enable something to be done upon the Neponset river and upon the Mystic river." As I understood it, it is quite true that, when the matter came into consideration before the committees, it was understood on all the bills that were there, and they united them into a general appropriation, that they were making provision which, on an estimate of tax values and of a percentage of cost for the lands upon the river, those which seemed to be available, was sufficient to provide for acquiring lands, substantially all that would be required upon the Mystic and the Neponset rivers. In that spirit the Metropolitan Park Commission, I will say frankly to you to-day, take you into their confidence and say that the Metropolitan Park Commission have proceeded diligently with their

study and consideration of how they could best apply those funds, make them go the farthest and produce the greatest benefit to the district and to this community in the acquirement of lands along the Neponset river. (applause.)

* * * * *

I am not hear by any means to have you draw from what I say the conclusion that the Metropolitan Park Commission is not going to spend any money on the Neponset river unless you come forward and show your interest by appropriating \$50,000, or doing something of that sort. That is not our business at all. Our business is to consider the problem and do the very best we can. We know there is a bad problem here. We have been up and down the river. We know what the state board of health said. We know that there is a matter here that ought to be remedied and ought to be considered. But, I have said, as trustees of the state it is our business, not to acquire this particular spot or that particular spot along this river, but to acquire that which will give the people the largest amount of the river for the money which we are able to devote to the purpose and which will acquire, as far as possible, the most critical points where there is pollution or where there are bad effects to be seen from the shore, and that is what we are trying to study and trying to figure out. You, gentlemen, can co-operate, not by making appropriations, unless you are disposed to do it, but by making it your business to stir up a public sentiment which shall demand that the shores of the river, where they are wanted, shall be sold at as reasonable prices as individuals sell those to other individuals.

* * * * *

The Neponset river is naturally beautiful. It is naturally a playground, a pleasure ground, a breathing space, which you ought to have in its beauty, in its purity, and in all that goes to make you happy and blessed in it. That does not mean, gentlemen, (for sometimes people get false impressions in their minds), that does not mean that industries are to be interfered with. It does not mean that there is any spirit on the part of the Commonwealth or of the state to come here and wipe out in-

dustries that happen to be located along the river. It does not mean that you are to have to go somewhere else to find your job or that the people who own those factories and buildings along the river are to be obliged to give those up and go elsewhere. Nothing of the sort. That never enters into it. Where the people are ready and willing and desirous to abandon those, then it becomes a fair question whether they shall be purchased or not; but the park business should never interfere with the legitimate business of the community. But when it becomes a question of whether you shall locate confectionery shops or something else out over the edge of your river, then I tell you, gentlemen, it does become a question of common interest (applause), and I take it that you can decide whether such improvements as that are legitimate and may be advantageously carried out in your midst. I thank you for your attention. (Great applause).

WILBUR H. POWERS, Chairman.

LAWSON B. BIDWELL, Secretary.

JOHN J. ENNEKING.

Park Commissioners of Hyde Park.

REPORT OF THE TRUSTEES OF THE HYDE PARK PUBLIC LIBRARY.

For many years, it has been customary in the annual report of the Trustees to allude to the lack of suitable accommodations for our Public Library. It is a great pleasure to us to be permitted to omit this annual subject in this year's report, and it is a far greater pleasure for your Trustees to call your attention to the new library building now in process of erection on Harvard avenue.

As stated in last year's report, we issued to architects our circular letter of requirements, of which the following is a copy :—

HYDE PARK, MASS., JANUARY 21, 1898.

The Committee appointed by the Trustees of the Hyde Park Public Library to obtain designs for a new library building offer the following suggestions to architects desiring to enter an open competition for such design.

SITUATION.—The lot is 100 feet square, level, and on the same grade as the adjoining streets. It is bounded westerly by Harvard avenue, 40 feet wide; and southerly by Winthrop street, about 35 feet wide. The building should front on Harvard avenue.

BASEMENT.—The basement should contain the heating apparatus and fuel room; also a portion of the stack-room as hereinafter specified.

THE FIRST FLOOR.—This should contain (*a*) a reading room, (*b*) a juvenile reading room, each to have cases for reference and other books around the walls and under the windows, (*c*) a delivery room, (*d*) a librarian's room, (*e*) a stack-room.

The reading room and delivery room, while they need not be in wholly separate rooms, should be so far disconnected that slight noise or conversation in one may not seriously disturb the occupants of the other rooms.

The stack-room should be twenty-one feet in height, seven feet of which is to be below the level of the first floor, i. e. in the basement. The outside walls of this room should contain an air space.

The centres of the windows on the sides of this room should be 52 inches apart, and the ground floor area should be not less than 900 square feet.

THE SECOND FLOOR.—This should contain a small hall with a floor-area of 1000 square feet more or less; also a trustees' room.

The stairway leading to the second story should be so arranged that it can be shut off from the rooms of the first floor.

There must be two toilet rooms in the building.

MATERIAL.—The material is to be brick with stone or terra-cotta trimmings.

COST.—The cost is not to exceed \$20,000 exclusive of the book-stacks, which form no part of this design.

The plans should be on a 1-4 inch scale and are to consist of

- (a) The elevations of each side in outline.
- (b) The basement and two floor plans.
- (c) A cross section of the reading room and of the hall.
- (d) A perspective view of the street sides.

There should accompany each set of plans a type-written description giving information concerning materials, methods of construction, decoration, lighting, heating, ventilation, etc.

There shall also be an estimate of the cost, and in case such estimate shall be exceeded by over 15 per cent. by the estimate of such contractor or contractors as the Committee may select the design may be rejected.

Each drawing and the description shall be distinguished only by a motto or device which shall be repeated on the outside of a sealed envelope containing the author's name and address.

TIME.—All designs and descriptions are to be delivered at the Hyde Park Public Library Rooms, Hyde Park, Mass., not later than 9 o'clock P. M., Monday, February 21, 1898, directed to the Committee on Plans and Estimates.

No plans not conforming to the foregoing will be considered and the Committee reserve the right to reject any and all designs which may be submitted.

The Committee will decide as quickly as possible which design they select and notify the authors of other designs that their designs are ready to be returned and await their orders.

COMPENSATION.—The Committee agree to pay 5 per cent. on the cost of the work executed from the selected architect's design for full professional services, and no compensation shall be given to those whose designs are not accepted.

For the Committee,

WM. H. ALLES, Secretary.

Our invitation was rewarded with thirty-five (35) sets of plans.

We had submitted to us very many excellent designs, though a careful figuring proved that some of them were far beyond the amount of our appropriation. After many weeks' consideration, during which we sought the aid of expert advice, your Board unanimously selected the plans of Messrs. Clark and Russell of Boston, as being on the whole best suited to our needs, both exterior and interior being considered.

The contract for construction was awarded to Mr. George Howard of Brockton, Mass., who was the lowest bidder and whom we found on investigation to bear a most excellent reputation as a builder. The contract was signed June 29, 1898, and work immediately commenced and, barring some unavoidable delays, has progressed in an exceedingly satisfactory manner, leading us to hope that the dedication of the new building will occur in May of the present year.

It soon became evident to the Trustees that the original lot purchased was too small to contain a suitable building, and on their recommendation the Town generously added the adjoining lot, and we think no one will regret that this action was taken.

In June, 1898, we employed an expert cataloguer to take charge of the re-classification of the books and the formation of a classified card catalogue. This work has been going on under her direction, with the aid of the regular force, and we hope it may be successfully completed without the necessity of closing the library on this account.

Early in the year we lost by death the assistance and co-operation of Mr. David C. Marr, who had been for many years one of our fellow-trustees. He was a man of genial manners and wide reading, and was always fertile in his suggestions for increasing the facilities of the library. The vacancy was filled by the unanimous election of Mr. John W. Griffin.

In April, 1898, the following letter was received from Mr. Henry S. Grew:—

BOSTON, APRIL 4, 1898.

Chairman of the Board of Trustees of Hyde-
Park Public Library:

Dear Sir:

Understanding that the appropriation made at a recent town meeting is not likely to cover all the cost of erecting and fitting up the new library building, I wish as a citizen of Hyde Park, to contribute the sum of one thousand dollars toward that object or the purchase of books, as may seem best to its Trustees. I am

Yours very truly,

HENRY S. GREW.

At a meeting held by the Trustees, April 9, 1898, it was voted to accept the gift, and the Secretary was instructed to return the thanks of the Board for same.

The Trustees wish to publicly express their gratitude to Mr. Grew for his gift to the Library, and venture to hope that this gift is the forerunner of other recognition, by present and former residents of the town, of the benefits of the Public Library.

A summary of the Librarian's reports for the past year is as follows:

Number of books returned, ...	35,318
Number of books borrowed, ...	35,268
Amount received in fines, ...	\$35.46
Number of cards issued, ...	427
Number of magazines used in the reading room, ...	1,085
Number of books used in the reading room, ...	624

The number of books borrowed in excess of 1897-98 was 1258.

The number of cards issued exceeds the number issued in 1897-98 by 27.

681 books were added to the Library, including 28 bound volumes of magazines and a few books were donated. 138 books were replaced in addition to the above 681.

The following is a list of the additions to the Library by gift :

United States, 33 vols., 3 pamphlets.

Commonwealth of Massachusetts, 21 vols. 1 pamphlet.

Robert C. Winthrop, 1 vol.

Charles H. Smith, 1 vol.

Somerville Public Library, 1 catalogue, 2 pamphlets and monthly bulletin.

Boston Transit Commission, 2 vols.

Walter G. Chase, 1 pamphlet.

Mass. Institute of Technology, 1 catalogue.

Salem Public Library, 2 class lists.

Concord, (Mass.) Public Library, 1 pamphlet.

Forbes Public Library, Northampton, 1 pamphlet.

Fall River Public Library, 1 pamphlet.

Hatch Experimental Station, 1 pamphlet.

Charles F. Light, 1 vol.

Fleming H. Revel Co., 1 vol.

Trustees of Public Reservation, 7th annual report.

City of Chelsea, 1 vol.

Walter A. Davis, 1 vol.

Scots' Charitable Society, 1 vol.

Joseph Semms, 1 vol.

Soldiers' Home, 1 pamphlet.

Respectfully submitted, for the Trustees,

WM. H. ALLES, Chairman.

TREASURER'S STATEMENT.

CEMETERY COMMISSIONERS' REPORT.

The receipts and expenditures for the financial year ending January 31, 1899, have been as follows :

RECEIPTS.

Sale of lots,	\$1,565 00
Sale of single graves,	295 00
Interment and receiving tomb charges,	542 00
Foundations for monuments,	198 89
Sewer award,	120 25
Wood,	4 00
Balance from last year,	4,065 64
	\$6,790 78

EXPENSES.

Labor, etc.,	\$1,503 98
Paid for land,	764 47
	2,268 45
Balance on hand,	\$4,522 33

A detailed statement of the receipts and expenditures accompanies this report.

Grading and preparing lots has been continued during the year, completing work commenced last year. Beech avenue has been opened, but owing to the cold weather early in the season no lots have been completed on this avenue.

The Commissioners feel that it is now time that some action should be taken to provide a permanent fund to be taken from the funds from the sale of lots, and invested, the income to be used for the care and adornment of the cemetery. Proper regulations will be submitted for the approval of the town during the coming year.

STATISTICS.

REPORT OF THE INSPECTOR OF BUILDINGS.

TO THE HONORABLE BOARD OF SELECTMEN :

Gentlemen—Following is a report of the business transacted in the office of Inspector of Buildings for the nine months of the year from May 1, 1898, to January 31, 1899 :

Permits issued for the erection of new buildings, . . .	62
Permits issued for extensions and alterations, \ . . .	15
Notices issued in writing to persons who had commenced operations without a permit, ...	17
Visits made to the various buildings in process of erection, extension and alteration ; waste boxes, back yards, wood working and machine shops, ...	170

There has been a decided improvement in the construction of buildings, and the care of combustible material since the new By-Laws have been in force, and when it becomes generally known that such laws are in effect we shall have very little trouble in having the law complied with as intended.

I wish to extend my sincere thanks to the Board of Selectmen for the courtesy shown me, to the contractors and others whom I have met in my official capacity, and to Henry B. Terry, Esq., who has been ready at all times to render legal advice.

Respectfully submitted,

RICHARD F. BOYNTON,
Inspector of Buildings.

POLICE REPORT.

TO THE HONORABLE BOARD OF SELECTMEN :

Gentlemen—The annual report of this Department for the financial year ending January 31, 1899, is respectfully submitted herewith :

Whole number of persons arrested,	255
Males,	244
Females,	11

CAUSES FOR ARREST.

Assault and battery,	39
Assault on an officer,	1
Assault (felonious),	1
Assault with a dangerous weapon,	3

MISCELLANEOUS.

Travellers lodged in station house over night,	3,316
Cases investigated without arrest,	197
Cases investigated for other officers,	11
Stores found open and made secure,	14
Lost children found and restored to parents,	18
Dead bodies found,	3
Defects in streets and sidewalks reported,	42
Street lights reported not burning,	457
Search warrants served for stolen goods,	3
Search Warrants served for gaming implements,	2
Search Warrants served for intoxicating liquors,	27
Amount of fines imposed by Court,	\$1,716.00

Number of persons fined	134
Imprisonment imposed by Court,	5 years, 8 months, 10 days,
Average of fines imposed,	\$12.80
Amount of liquor seized,	132 gallons.

FINAL DISPOSITION OF CASES.

Paid fines,	89
Committedd to House of Correction for non-payment fines,	40
Committed to House of Correction by Court,	17
Cases placed on file,	26
Nol prossed,	1
Committed to Insane Asylum,	4
Turned over to parents,	3
Ended by marriage,	1
Cases dismissed for want of prosecution,	5
Discharged,	13
Held for grand jury,	9
Appealed.	6
Turned over to other officers,	5
Committed to Lyman school for boys,	3
Placed on probation,	30
Committed to Dipsomaniac hospital,	1
Defaulted,	1
Committed to Walpole truant school,	1
	255

The police force during the past year has consisted of seven men, five being assigned to all night duty, and I would respectfully recommend that it be maintained at that number at least. I would also renew my recommendation of last year that the fines received by the town in criminal cases be placed to the credit of the Police Department for maintenance of the station house and for criminal expenses.

I desire to express to the members of the police force my appreciation of the cordial relations existing among them, and to the Board of Selectmen my sincere thanks for their aid and courtesy upon all occasions.

JAMES McKAY,
Chief of Police.

TOWN CLERK'S REPORT.

Number of births registered in Hyde Park in 1898	391

The Town Clerk requests information of any omission or errors in the above tables, in order that the registration may be as complete as possible. Respectfully submitted,

HENRY B. TERRY, *Town Clerk.*

REPORT OF THE BOARD OF ENGINEERS.

TO THE HONORABLE BOARD OF SELECTMEN :

Gentlemen—The Board of Engineers respectfully submit the following report of the condition and of the Fire Department for the year ending January 31, 1899.

The Department has responded to 38 alarms during the past year. Of these, 36 were for fires in buildings and two brush fires. The total loss by fire was :

	Value.	Damage.	Insurance.
Buildings,	\$139,805 00	\$40,292 00	\$133,900 00
Contents,	87,509 00	36,004 00	62,210 00

One permanent man and horse have been added to the Department in the Readville district, and a storage battery has been placed in the central fire station on trial, and two more alarm boxes have been added to the system. The changing of the grades in Readville has caused us much expense and annoyance on account of having to change the the wires so often. The horses, apparatus, etc., are in good condition.

There are at present five permanent men in the Department, drivers of the chemical, hook and ladder, hose No. 1, hose No. 3 at Readville, and Supt. of fire alarm.

BENJAMIN RAFTER, Chief,
J. C. McDOUGALD,

REPORT OF THE OVERSEERS OF THE POOR.

The work of the Poor Department increases with the growth of the town and in the changes in the laws relating to pauper settlements. According to the law enacted by the Legislature of 1898, all settlements not fully acquired subsequent to May 1, 1860, are defeated and lost; provided that whenever a settlement acquired by marriage has been defeated, the former settlement of the wife, if not defeated by the same provision, shall be thereby revived. ALL PERSONS absent from the State for ten years in succession shall lose their settlement.

The purpose of the above very decided change in the law was to relieve cities and towns, and especially towns, from liability for the support of indigent persons who had derivative settlements in Massachusetts through their grand-parents and great-grand-parents. Many such indigent persons who, with their parents, were born outside the state, had derivative settlements through their ancestors acquired 75 to 100 years ago. Two and three generations had never resided or been in their place of settlement, perhaps had never even heard of such a town, yet by the laws of the Commonwealth when they fell into distress and became a public charge, the place of settlement had to pay necessary expenses incurred for their relief.

It is estimated that about three per cent. of all settlements in Massachusetts were defeated by the recently enacted law. Persons whose settlements were defeated become state cases should they again apply for public aid.

The ten-year feature of the new law is not retroactive, but it will, after July 1, 1908, be very helpful in cutting off

the settlements of those who in the prime of life leave the state, to return only in their declining years when they need aid from the public treasury. Their children and children's children will also be cut off.

Another important, and to the cities and towns very satisfactory change, is that the same legal obligation to support her pauper children shall rest upon the mother as formerly rested by law upon the father, provided, however, that the mother shall not be liable to criminal prosecution for the enforcement of such legal obligation.

Subjoined is the list in detail of the expenditures during the past year, together with the number of persons receiving aid.

CHARLES LEWIS,
 GEORGE W. CHAPMAN,
 GEORGE E. HAVEN,

Overseers of the Poor.

REPORT OF BOARD OF HEALTH,

TO THE CITIZENS OF HYDE PARK :

We herewith present the following as our annual report for the year ending Jan. 31st, 1899.

CONTAGIOUS DISEASES.

The continued reduction in the number of contagious diseases is a condition upon which the citizens can well be congratulated.

The total number of deaths from contagious disease during the year was 11, divided as follows :

Diphtheria, 7 ; membraneous croup, 3 ; typhoid fever, 1 ; and none from scarlet fever, measles or whooping cough.

The total number of cases of contagious diseases reported was 142 as against 160 in 1897 and 173 in 1896 as follows :

Membraneous croup, 7 ; measles, 39 ; scarlet fever, 26 ; typhoid fever ; diphtheria, 61.

The remarkable decrease in the death rate from diphtheria from 27 per cent. in 1896 to 11 per cent. in 1898 can surely be credited to the free use of Anti-Toxine and thorough and systematic disinfection. This valuable and expensive remedy for that dreaded disease having been furnished by the Board of Health to the physicians in all cases when requested, thereby giving every one the benefit and unlimited use of the same free of charge.

The disinfection and fumigation by the use of formaldehyde gas has been continued with gratifying results, as there has not been a second case reported from houses where this process has been applied. Early in September of 1898 several cases of diphtheria appeared in the vicinity

of the Greenwood school and the disease seemed to bid fair to become an epidemic. However, by the assistance of those in whose homes it appeared, in complying with the rules of the Board of Health, and after a careful examination of the houses in which the diseases originated, probable cause of the source of infection from defective plumbing being found, and ordered remedied, the books used in the schools by those affected with the disease being destroyed, and the balance disinfected, and also the several school rooms in the district having been thoroughly fumigated, the spread of the disease was almost immediately checked.

The custom of placarding every house containing a case of scarlet fever or diphtheria was followed during the year, and the prejudice manifested by householders against having their houses placarded is fast disappearing in proportion as the object for which it is done is becoming understood.

We desire to express thanks to the medical profession of this town for the promptness and accuracy with which they have reported all cases of contagious disease coming under their observation.

In the number of cases of scarlet fever there has been a decrease from that of last year of 44 per cent. The improved method of disinfection has been used in all cases of scarlet fever during the year, and it is readily seen that the results are most gratifying.

The fact that the large buildings used for school purposes may need disinfection at any time, and the great length of time necessary to do the work with the single machine which we have, and the liability of its having to be repaired, makes it imperative that an additional one be purchased.

We have the pleasure also of reporting a decrease in the number of cases of typhoid fever as against those in 1896 and 1897 of 45 per cent., which goes to prove that by care-

ful inspection of all plumbing and other sanitary appliances and the removal of all possible causes of infection, that the general decrease in preventable diseases will continue.

COMPLAINTS AND SANITARY CONDITIONS.

There have been many complaints of unsanitary condition in various parts of the town during the year.

A great majority of them being made verbally, these places have all been visited, and all have either been remedied, or arranged to be put in shape as soon as the conditions will allow.

If all persons who made complaints to the Board of Health would do so in writing and, sign the same, it would facilitate matters very much, and could work no possible injury to the signer; anonymous complaints received are not worthy of attention. Sanitary rules cannot be ignored if we would escape disease. With the abolition of privy vaults and cess-pools on several streets in which there is a sewer, and the better attention given to their construction and location on new streets and those which have no sewers, (the only condition under which their erection is permissible,) if the cleaning and removal of their contents are properly conducted, there is no reason why typhoid fever and other preventable diseases cannot be reduced to a minimum.

Although many years have passed since a case of small pox has been reported in the town, still it is liable to occur at any time. Should small pox appear we should be prepared by being provided with facilities to control it. As it is we are not even provided with a place where the patient might be safely isolated and cared for. A sectional building which could be stored in some convenient place, and which could be erected in a few hours should be provided. In case the emergency should arise we would then be able to meet it successfully.

The vaccination of all children who attend the public and parochial schools should be insisted upon as the public statutes provide. On the whole the sanitary condition of the town may be considered very fair, although privy vaults and cesspools continue to be an intolerable nuisance and are, we believe, directly responsible for a great deal of sickness.

The custom pursued in abolishing vaults and cesspools on the streets in which there are sewers has been as follows: when a complaint of the premises is made, or a case of contagious disease is reported to exist, the premises, plumbing, and drainage system is thoroughly examined. If the systems are found defective an order is issued directing the reconstruction of the plumbing and abolishing the vaults or cesspools.

All abutters on a street in which there is a public sewer, are requested to connect their premises with the same, and to abolish their cesspools and vaults. While the majority of the citizens comply readily with all orders issued by the Board of Health after the premises are inspected, there are others who are seemingly unwilling to do so, which makes it necessary to proceed carefully and surely in taking the proper steps, to be prepared (in the event that legal proceedings become necessary) with proper evidence to sustain the action.

VAULTS AND CESSPOOLS.

The present method of cleaning vaults and cesspools which from a sanitary point of view is fairly good, still it is not directly under the control of the Board of Health. The cost of emptying cesspools has been reduced from that of last year, but that of the vaults remains the same. If the town owned the apparatus and had a safe and proper place for the disposal of that class of waste matter, the objections to the present method would be completely overcome.

GARBAGE AND SWILL.

We again call your attention to present methods of the disposal of garbage and house and store dirt that prevails here, and the unsightly dumping places which are a disgrace to our town, and a menace to the health of the community in which they are located.

The town is becoming more thickly settled every year and the need of some better system of disposal of house and store dirt is apparent. It is utterly useless to endeavor to keep the places used as common dumps in decent condition, and the waste material, must be disposed of in some other manner.

The collection of swill has been continued in the same manner as last year, but owing to the increased number of houses and collection from places which had formerly disposed of swill in some other way, refuse from stores that could be classed as swill, such as decaying vegetables, etc., it was found necessary to add another team to the working force in order to make two collections each week during the latter part of the summer and early fall, and it will be impossible to do this work in a proper manner next year without an additional team for at least four months during the warm weather. The complaints from the swill dumps have ceased since the erection of the building over it, and it is believed that this place may be maintained for some years to come without trouble or inconvenience to those who may reside near it, however, sooner or later the location or method of disposal will have to be changed when there are many more buildings in the immediate vicinity.

SEWERAGE.

The extension of the sewer system of the town has afforded much relief to citizens whose property abuts on those streets where sewers have been built. There is a marked difference between the sanitary condition pre-

sented now on those streets, and what formerly prevailed before the sewers were put in. We urge the continuance of the sewerage system to completion as fast as possible, as much inconvenience and hardship will have to be endured by residents of many sections of the town until they are enabled to enter the sewers and their branches.

DISEASE IN ANIMALS.

There were several cases of glanders reported and notices were published and posted warning horse owners and others of the danger of contagion.

In cases of tuberculosis in cattle the usual ten-day quarantine has been maintained only; owing to the lack of funds by the State Board of Cattle Commissioners, however, as all cases were either cleared up or were properly disposed of before expiration of the time, the town or its interests did not suffer.

DRAINAGE.

In continuation of the policy of last year in the line of draining wet, rotten and spongy land, a short drain has been put in on Central avenue near Page street, which was badly needed as there was no outlet for the surface water, and it was fast becoming a nuisance and source of disease. This section needs better drainage across Central avenue and the land and streets beyond and continuing to the river. But it was thought not advisable to take any steps at present in that direction as it is expected that the sewer will be built this year on the line of the ditch or nearby, and a sufficient under-drain will probably obviate the trouble to a great extent. During the changes of grade crossings at Readville the drain from the land on Regent street near Chesterfield street was destroyed, the land becoming overflowed to a great extent. Upon explaining the matter to

railroad authorities their engineer ordered the old drain replaced with a much larger and better one, and since then there has been no complaint.

Between Blake street and Radcliffe Road in Rugby district, a large pond and swamp filled with stagnant water has existed for years and large number of dwellings have been built near the same. From the drainage of houses and surrounding land it had become very filthy, and a probable source of sickness. It was decided that this nuisance should be abated in some manner. After consulting with the owners of the land in the immediate vicinity we proceeded to remove the nuisance. A ditch 1700 feet in length and of sufficient depth to lower the water in the pond so that it would not again be liable to become offensive was dug, and three culverts of a size sufficient to provide for any sudden flow of water were built and the water drained from the pond, thereby not only preventing causes of disease that might arise from stagnant water in the pond, but rendering passable all roads in that district so far as any floods in that water course are concerned, and draining a large area of land along the ditch, which was formerly always swampy and wet.

While the town can well afford to invest money in such improvements, getting its pay not only by having produced better sanitary condition in these places, but in the increased value in real estate and additional land suitable for building purposes, still the owners have guaranteed to pay two-thirds of the cost. The work of improving the sanitary condition of the town in this line should go on as there are many places which need it badly, and the whole town needs the addition of all values that may be increased by improvements on such lines as can be done from year to year without great expense.

A copy of report of Health Officer and Inspector of Plumbing is appended herewith :

REGULATIONS OF THE BOARD OF HEALTH OF THE TOWN OF HYDE PARK.

PUBLIC STATUTES: CHAPTER 80, SECTION 18.—The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth, and causes of sickness within its town. Whoever violates any such regulation shall forfeit a sum not exceeding one hundred dollars.

In accordance with the foregoing provision of law, this Board makes the following regulations, which will be strictly enforced:

REGULATION 1. *Privy Vaults and Drains.* Section I. Every tenement shall be provided with a water-tight underground drain to carry off the waste waters, also with a suitable privy or water-closet sufficient for the accommodation of all those inhabiting the premises.

Section II. All privy vaults, unless water-tight, shall be so constructed that the inside of the same shall be at least five feet distant from the line of any adjoining lot or street, and at least twenty feet from any dwelling house, and shall be provided with a ventilation through the roof. The same shall not be used as cesspools nor receive drainage from the premises. The contents shall not be allowed to leak out or otherwise become offensive. All privy vaults shall be of a size sufficient to satisfy the Board of Health.

Section III. All waste water shall be conveyed through sufficient drains under ground to a cesspool sunk under ground, which shall be of sufficient size to contain at least 80 cubic feet, and when not water-tight must be at least twenty feet from the cellar wall of any tenement or dwelling, and at least five feet distant from any adjoining lot or street. Cesspools shall be built in a thorough and substantial manner, as shall be approved by the Board of Health.

Section IV. No person shall allow any drain or the overflow of any cesspool to enter any running stream, or any drain constructed for surface water, and no person shall suffer any house drainage or other offensive matter to remain in any cellar, or upon any lot or vacant ground by such person owned or occupied. All privy vaults and cesspools within one hundred and fifty feet of any well or spring, the water of which is used for domestic purposes, must be water-tight.

Section V. All privy vaults or cesspools must be thoroughly cleansed at least once in each year, and oftener if necessary for the public health, the expense to be borne by the owner of the property.

REGULATION 2. Section 1. The Board, when satisfied upon due examination that a cellar, room, tenement, or building in the town occu-

plied as a dwelling place, has become by reason of the number of occupants, want of cleanliness, or other cause, unfit for such purpose, and a cause of nuisance or sickness to the occupants or to the public, may issue a notice in writing to such occupants, requiring the premises to be put in proper condition, or if the Board see fit they may require the same to be vacated, and the same shall not be again occupied without the written permission of the Board.

Section II. No person shall throw or put into any public place or pond, or running stream or body of water, or in any other place where the Board of Health may deem it a nuisance, any dead animal, animal matter, decayed fruit or vegetables, dirt or rubbish whatever; nor shall any person throw into or upon any flats within the jurisdiction of the town, any dead animals, filth, or offensive matter.

REGULATION 3. *Swill and Offal.* Section I. No person shall remove or carry in or through any of the streets, lanes, or avenues, places or alleys within the town of Hyde Park, the contents of any cesspool, vault or privy well, swill or house offal (either animal or vegetable), or grease or bones, unless a permit be granted by the Board of Health upon such terms and conditions as said Board may deem necessary.

Section II. No person shall bury swill or house offal, or the contents of any cesspool, vault, privy or privy well within the limits of the town of Hyde Park, unless a permit be granted by the Board of Health.

Section III. Parties will be licensed by the Board of Health to collect swill and refuse matter from houses in Hyde Park twice a week or oftener, and all housekeepers and others are directed to deliver the same to those duly authorized to make such collections.

REGULATION 4. *Diseased Meat and Provisions.* Section I. No person shall bring into the town, keep or offer for sale any diseased, putrid, stale or unwholesome meat, vegetables or provisions.

REGULATION 5. *Swine.* Section I. No person will be permitted to keep any swine within the limits of the town of Hyde Park, without a written permit from the Board of Health.

REGULATION 6. *Contagious Diseases.* Section I. Any person sick with the small pox or other contagious disease, together with all persons in attendance upon them, and the premises where such sick person is, will be subject to the control of the Board, and no person shall enter or leave a house wherein a person is, or has been sick with the disease, or in any way come in contact with the inmates of such house except by permission of the Board.

Section II. Whenever the Board of Health shall ascertain that any person is sick with small pox, scarlet fever, diphtheria, or any other disease dangerous to the public health, the Board shall, at their discretion, have full control of said person or premises, and shall, if they deem proper, order the premises vacated.

Section III. All persons are warned not to approach a house or the surrounding premises whereupon is displayed a disease flag by day or a red light at night.

Section IV. The bodies of all persons dying of small pox, scarlet fever, typhus fever or diphtheria, must be immediately disinfected and placed in a tight coffin, which shall not be re-opened, and the bed, bed clothing, and other clothing used by any such person, and by those in attendance upon him, and all the furnishings of the sick room, thoroughly disinfected before being taken from the room. In the above case no public funeral will be allowed without permission from the Board of Health.

Section V. The owner or person having charge of any vehicle, public or private, used at a funeral in the foregoing cases, to carry the deceased, shall forthwith report the fact to the Board of Health, and shall thoroughly disinfect such vehicle before the same is again used, and take such precaution as the Board of Health shall direct.

Section VI. Any person in the Town of Hyde Park who knows or suspects any domestic animal has contagious disease (such as glanders in horses or cholera in swine), must immediately report the same to the Board of Health. The penalty for neglect to do so is fine or imprisonment. The above is in accordance with the provisions of Chapter 252 of the Acts of 1887.

REGULATIONS. 7. Section I. All complaints in relation to nuisances and sources of filth injurious to the public health and safety, must be made in writing to the Board of Health, with a description of said nuisance and of the premises on which it exists, with the owner's name, if known to the complainant. Such complaints must bear the signature of the complainant. Whenever such complaint shall be made as aforesaid, the Board of Health shall proceed to examine the premises complained of, and will take measures to abate the nuisance if such is found to exist.

REGULATION 8. Section I. No person, firm or corporation not now engaged in or working at the business of plumbing shall hereafter engage in or work at said business in the town of Hyde Park, either as a master or employing plumber or as a journeyman plumber, unless such person, firm or corporation first receives a license therefor, in accordance with the provisions of Chapter 477 of the Acts of the year 1893 of the Commonwealth of Massachusetts and Acts amendatory thereof, or supplementary thereto.

Section II. Any person desiring to engage in or work at the business of plumbing, either as a master or employing plumber, or as a journeyman plumber, shall apply to the Board of Health, and shall at such time and place as may be designated by the Board of Examiners appointed by the Board of Health, as provided for in said Acts, to whom such appli-

cation shall be referred, be examined as to his qualifications for such business. In the case of a firm or corporation the examination and licensing of any one member of the firm, or the manager of the corporation, shall satisfy the requirements of this regulation.

Section III. The Board of Examiners shall examine said applicants as to their practical knowledge of plumbing, house drainage and plumbing ventilation, and if satisfied of the competency of the applicant, shall so certify to the Board of Health. Said Board will thereupon issue a license to such applicant authorizing him to engage in or work at the business of plumbing. The fees for a license for a master of employing plumber shall be two dollars; for a journeyman plumber it shall be fifty cents. Said license shall be issued annually, expiring on the thirty-first day of May next ensuing, and shall be conditional on skilful work, and a strict observance of the rules governing plumbing.

Section IV. No person shall carry on the business of plumbing unless he shall have first registered his name and place of business in the office of the Board of Health; and notice of any change in the place of business of a registered plumber shall be immediately given to said Board.

Section V. No person shall proceed to construct, add to, or alter any portion of the drainage system (except to repair leaks) of any building in the town of Hyde Park, until plans showing in detail the whole drainage system shall have been filed at the office of the Board of Health, upon blanks in such form as the Board may determine; no person shall commence work on such drainage system until the plans are accepted by the Inspector of Plumbing and a permit of approval granted. Plans and specifications shall be approved or rejected within five days of the time of filing.

Rules and regulations for material, construction, etc., may be found in town by-laws.

REGULATION 9. The Board of Health hereby adjudges that the deposit of sputum in street cars, public buildings, or churches is a public nuisance, source of filth and cause of sickness, and hereby orders: That spitting upon any floor of any street car, public building or church be, and hereby is, prohibited.

Fully believing that a large proportion of contagious diseases originate from unsanitary conditions, we trust that we shall have the aid of all citizens and property owners in carrying out the above regulations, which are based on statute laws, and the sanitary rules of our large towns.

W. S. EVERETT, Chairman,
E. C. FARWELL, Secretary,
WM. W. SCOTT,

Board of Health.

*To W. S. Everett, Chairman and Member Board of
Health, Hyde Park, Mass.*

I herewith submit to you my second annual report as Agent and Plumbing Inspector :

The duties of this position have greatly increased during the year, but this of course was to be expected in order to bring the sanitary affairs of the town up to the standard of communities similarly situated to ours in the demands of the citizen for improvement. Also the desire of the Board of Health to have all work done by day labor and by residents of the town has in no small measure increased the responsibilities. Agreeable to your orders there has been built a frame building 37x14 to be used as a dump for swill at Readville.

There was also constructed a drain to remove stagnant water on Central avenue near Page street. Realizing the costly errors that could occur by lack of absolute knowledge in regard to putting in drains, ditches, etc., and feeling that such work was of vital importance in improving the sanitary condition, I recommended the purchase of suitable instruments to obtain grades and levels, which recommendations were adopted and instruments purchased. Since then studies have been made as to the practicability of draining and putting in a healthful condition several localities in the town, and subscriptions were recieved from owners in the Rugby district in order that the territory from Blake street to the Boston line at Rugby station, might be drained.

This work was done under my immediate supervision and proves to be of great benefit in the maintenance of healthful conditions and personal comfort of all persons who live in or have occasion to pass through that district, and materially increasing the value of the real estate, rendering land that would otherwise be useless, suitable for occupation.

There have been posted notices of contagious diseases on 94 houses, and upon recovery or death of patients, 165 rooms have been fumigated with Formaldeheyde gas. The Greenwood and Amos Webster schools have been thoroughly disinfected, and the books used in the same schools have also been specially treated. I have also disinfected several houses, on request of householders, when infected by diseases and conditions which are not reported under the statutes.

Your attention is respectfully called to the decrease in the number of cases of preventable diseases from that of previous years when no systematic method of controlling them was followed.

There have been made to this office, both verbally and in writing, 160 complaints which I have investigated, and reported to the Board of Health those which were not settled at once without further action.

The collection of swill presented new difficulties over last year, not only on account of natural growth, but from the fact that we had to collect store refuse of this class to prevent its becoming a nuisance on the common dump. However, by the help of an extra team during the warm months the work was done satisfactorily. I would repeat my suggestion of last year that the citizens of the town be requested to provide suitable water-tight receptacles for swill, and to refrain from putting into them cans, bottles, or any material that cannot be disposed of as swill.

INSPECTION OF PLUMBING.

There have been 233 applications to do plumbing, filed at this office during the year ending Jan. 31, 1899, for which permits were granted, for work amounting to about \$30,000, and which necessitated over 500 tests and inspections. The changes in the by-laws adopted by the town, governing

plumbers, which went into effect near the commencement of the year, have proven practical and easily followed. The class of work done in the town was far above the average of that in neighboring cities and towns. All violations of the rules, and mistakes, have been cheerfully rectified as soon as called to the plumber's attention. I desire to express to them my thanks for their efforts in the line of better sanitary work.

Respectfully submitted,

C. T. LOVELL,
Health Officer and Inspector of Plumbing.

DETAILED STATEMENT OF EXPENDITURES.

INCIDENTALS.

Paid Wm. F. Dodge, janitor and cash paid out,	\$438 65
Wm. F. Dodge, rent Waverly hall,	210 00

HENRY S. BUNTON, *Town Treasurer.*

HYDE PARK, FEBRUARY 1, 1899.

AUDITORS' REPORT.

We have examined the books of the several Departments of the Town, and while we have nothing adverse to report, we do not feel that the auditing, as at present conducted, warrants us in subscribing to a full and favorable report, and would recommend that the Town take such action as would be the means of giving to this office the consideration that the same requires.

HOWARD S. THOMPSON.
CALVIN P. FELLOWS,
JOSEPH J. HOUSTON,

Auditors.

SCHOOL CALENDAR, 1898-99.

FIRST TERM.

Begins Monday, Sept. 5th; ends Friday, Dec. 23rd—16 weeks.

SECOND TERM.

Begins Monday, Jan. 2nd; ends Friday, March 31st.—13 weeks.

THIRD TERM.

Begins Monday, April 10th; ends Friday, June 23rd.—11 weeks.

CHRISTMAS VACATION.

Begins Monday, Dec. 26th; ends Friday, Dec. 30th.—1 week.

SPRING VACATION.

Begins Monday, April 3rd; ends Friday, April 7th—1 week.

HOLIDAYS.

Sept. 5th and 6th, Nov. 24th and 25th, Feb. 22nd, March 31st,
April 19th and May 30th.

SCHOOL COMMITTEE'S REPORT.

TO THE CITIZENS OF HYDE PARK :

It is our duty and pleasure to present in brief outline the more important events connected with school supervision during the year. We may reasonably hope that our report will secure an interested perusal, for we shall refrain from any undue theorizing and address ourselves to the practical work in hand. For statistical data, and for more elaborate view, we invite attention to the tables published, and to the Superintendent's report. The first question which pressed for an answer at the commencement of the year was, "Shall we have a Superintendent of Schools?" The question had been pretty thoroughly discussed by press and people prior to the spring election, and it then crystallized to a definite issue. After proper deliberation we voted unanimously to ask the town to instruct us to elect a Superintendent, and the town so instructed. We at once entered upon the difficult task of selecting, and after examining about fifty applicants our choice centered, without division, upon Mr. Frank O. Draper, of Central Falls, Rhode Island, who, at that time, was in charge of the schools in that place.

He promptly accepted and entered upon his duties July 1st, 1898, although prior to that time, in a purely informal way, he visited our schools and familiarized himself with the methods employed. This preparatory work was productive of excellent results; it took from the incoming term much that would have caused delay, and served to establish pleasant personal relations with the whole working force of the schools. We highly appreciate the services thus far rendered by Mr. Draper; he has brought to the

position positive fitness for leadership, superior educational power, constructive force, conservative method and an eminently worthy character. We have in him a highly valued official, and the town can well congratulate itself upon having secured his services. It is gratifying to note the very strong endorsement he is receiving from the town's people, and the general acquiescence in the movement so recently inaugurated.

This change in school government in no way reflects upon past methods; it is simply the natural sequence of the zeal and interest which preceded it. Now that we have entered upon a new school policy, we feel that it is especially incumbent on each and every one to do all possible things to secure unification of public sentiment. On subjects affecting our school interests we cannot afford to divide; whatever else distracts us, these should be considered calmly and dispassionately, and with an eye single to our children's educational welfare. Our children have but one royal opportunity, and this should be fully accorded them whatever else fails.

The revival of the High School Battalion is notable among the changes of the year. We hope that this action will be productive of good results, and that it will give an increased zeal and dignity to the students' effort and impart added grace and vigor to the school itself.

One unpleasant duty devolved upon us during the year, which was the temporary closing of the Weld school. We hesitated to so act, but the meagre attendance made it imperative. Very soon after it was closed a protest from residents of the district came to us, and we decided, after their strong presentation and their assurance that the full quota of pupils should attend the school, to re-open it. We, in common with those protesting, considered it a calamity to close a public school, and yet we were acting from a sense of duty, and so could not properly be guided solely

by inclination. Even now the attendance is numerically small, but we feel strongly assured that the popular desire is that the school be continued, and we fully hope that the coming year will justify this course.

The Industrial School, in its sewing and carpentry departments, has increased in interest and numbers. In the sewing division the attendance has advanced from an average of 11 to nearly 40, and in the carpentry from 40 to 100. This, of course, adds to its expense, but it is an outlay which will bring its compensation by giving to many homes a skillful and economical handling of matters which, when properly managed, contribute so largely to every-day comfort and convenience.

At the last appropriation meeting the town made liberal provision for the maintenance of the schools, and we have endeavored to make careful expenditure of the same. Some unusual expenses were incurred in the renovating of the school buildings and in furnishing the rooms of the Committee and Superintendent.

In the direction of school affairs we have no doubt pursued, in some instances, the course not conducive to the best results, and have failed to correct all errors, even some of those of which we were cognizant. Our aim has been to make safe and sure progress, having in mind the mandate, "make haste slowly."

In closing, we cannot refrain from making one recommendation which to us seems of vital importance. We earnestly urge a new building for the High School. This has been a subject of controversy for a long time, and it may not be wise to bring it anew to your attention. We know that there has been a wide divergence of opinion in the past which may possibly now exist, and yet we feel that we should be derelict to the best interests of the town, as well as to the schools, if we did not endeavor to revive public sentiment along the line of renewed advocacy of this project.

Our present building has had many alterations made at a considerable financial outlay, and yet it is insufficient for our needs, and it does not, as a public structure, creditably represent the town. At the risk of reading the town a homily on wise action in this, and in other cases of public improvements, we shall venture to advocate a new building as a measure of economy.

There is a belief, already too strongly rooted, that to avoid spending money on needed improvements makes the town a point toward which capital and population will naturally gravitate. Our belief runs on exactly opposite lines. We are confident that omitting to make needed improvements results in degeneracy and loss. This is as true when applied to individual as to town affairs. At this time in our history this becomes an especially valuable truth to consider, for we feel it to be unquestionably true that just now we are in danger of suffering irreparable loss by neglecting to make public improvements, which our natural situation and our competitive relation to other municipalities demand.

It is always well to defend the town when any one tries to defame it, but we should not carry our defense so far as to multiply our lines of weakness. Evade the matter as we may, the fact remains that the present High school building militates against the best interests of the town as well as of the schools. The value of a town as a place of residence or as a place to invest capital is estimated largely on the character of its public buildings and on the attractiveness of its streets. On these two excellencies hinge its material prosperity more than on any others. We trust that our pleading for a new High school building will not be in vain.

Respectfully submitted,

E. I. HUMPHREY,

Chairman.

SUPERINTENDENT'S REPORT,

TO THE SCHOOL COMMITTEE OF THE TOWN OF HYDE PARK :

My first annual report as Superintendent of the Hyde Park Public Schools is herewith respectfully submitted.

Following is a summary of school statistics for the statistical school year last completed, ending June 30, 1898 :

GENERAL STATEMENT.

SCHOOLHOUSES.

No. 1.	High School,	nine rooms,	Everett street
" 2,	Damon "	eight "	Readville "
(four occupied)			
" 3.	Hemenway sch'l	one room,	Wolcott "
" 4.	Grew school,	eleven rooms,	Gordon avenue
" 5.	Greenwood sch'l	nine "	Metropolitan avenue
" 6.	Amos Webster "	four "	Hilton street
" 7.	Butler school,	one "	East River street
" 8.	Fairmount sch'l,	nine "	Williams avenue
" 9.	Weld school,	two "	Highland street
(one occupied)			

Number of school rooms occupied,	.	.	.	.	.	49
" " buildings,	.	.	.	.	.	9
" containing high school department,	.	.	.	.	.	1
" " eighth (highest grammar) grade,	.	.	.	.	.	4
" " primary grades only,	.	.	.	.	.	4

TEACHERS.

Number of teachers regularly employed,	.	.	.	.	.	56
Supervisor,	.	.	.	.	.	1
Men teaching in day schools	.	.	.	.	.	7
Women " "	.	.	.	.	.	43
Men " in evening schools (teaching also in day schools),	.	.	.	.	.	1
Women " " "	.	.	.	.	.	2
Men " in vacation schools,	.	.	.	.	.	1
Women " " "	.	.	.	.	.	1

Number of day school teachers who have attended college,	12
“ college graduates,	10
Number who have attended normal school,	13
“ of normal school graduates,	9
“ who have attended training school,	7
“ of training school graduates,	1

SCHOOL CENSUS.

Population of Hyde Park (estimated),	13,000
Total number of persons 4 to 21,	3,360
“ “ “ “ 5 to 15,	2,096
“ “ “ boys “	1,049
“ “ “ girls “	1,047
“ “ “ persons 8 to 15,	1,615
“ “ “ “ 4 years,	221
“ “ “ “ 14 “	195
“ “ “ “ 4 to 21 in school,	2,344
“ “ “ “ “ in Hyde Park public schools,	1,546
“ “ “ boys “ “	764
“ “ “ girls “ “	782
“ “ “ persons “ in Hyde Park private schools,	23
“ “ “ “ “ parochial schools,	683
“ “ “ “ “ in schools out of town,	92
“ “ “ “ “ not in school,	1,016

MEMBERSHIP AND ATTENDANCE.

Total number of pupils registered,	1,935
Average membership,	1,586
Average attendance,	1,471
Per cent. of attendance,	92.3
Pupils under 5 years of age,	1
“ over 15 “	236
“ between 8 and 14 years of age,	1,064

STATISTICS.

The statistics of membership, attendance, etc., given in this report are for the school year ending June 30, 1898. As heretofore given the statistics covered a part of two school years and were based on two years' classes. Finan-

cial reports must be based on the fiscal year of the town, but the natural school year is a more satisfactory basis for all other returns.

TEACHERS.

Thirty-two teachers have attended college, normal school, or training school. Of these, twenty are graduates. Still others have attended courses of educational lectures and have taken private courses of professional reading which in connection with successful experience in teaching may be regarded as, in a fair measure, taking the place of the work of the schools. As a whole, our corps of teachers is above the average in professional spirit and attainment. It is to be regretted that the relatively low scale of salaries paid is inadequate to retain many of our most progressive teachers who are constantly sought by those in charge of school systems more highly favored in this respect. That we do not lose a greater proportion each year is surprising, but is in part due to personal reasons which render change of residence distasteful to teachers who might be induced otherwise to seek promotion. Under present conditions, as vacancies occur they must be filled largely by teachers from smaller towns who come to our schools as a vantage ground from which to win promotion.

ORGANIZATION.

As at present organized, each elementary school of more than four rooms is under the direction of a supervising principal. The primary schools in each district are now without this form of supervision. While this change is attended with some loss to these schools, the Masters are free to devote their whole attention to the pupils within their respective buildings and can give a greater share of their time than formerly to the pupils of the grammar grades where their influence is most needed. This is a distinct gain and cannot fail to be productive of good. I re-

gard the Master's influence as essential to the complete development of character in pupils of the higher elementary grades. Our schools are fortunate in possessing this element of strength which is too often lacking in any but the largest towns.

No change has been made in grading. The numbering of the grades has been reversed to correspond with the system in common use—the first grade becoming the first primary school year, and the twelfth grade the senior class of the high school.

In the Fairmount school the first-year pupils are divided, the younger and more immature pupils forming a beginner's or sub-primary class. I recommend that this division be extended to all the first grade classes having a sufficient number of pupils, and that a relatively large portion of the course for the lower division consist of kindergarten occupations. This sub-primary class has been given a five years' trial in schools under my direction and is a marked improvement upon the plan of two divisions of equal attainments, nearly one-half of whose pupils in some cases remain more than one year in the first grade or are promoted without adequate preparation.

KINDERGARTENS.

The Committee are agreed, I believe, that a system of kindergartens in connection with the public schools is desirable, and I hope that such a system may be established as soon as provision for it can be made by the appropriation of the necessary funds and by the opening of additional school rooms. Meanwhile, the sub-primary grade recommended above will, to a limited extent, provide the needed preparation for first-grade work so keenly felt in the case of those pupils who enter school at the age of five years. Undoubtedly the best kindergarten is a good home and the best kindergartner is a devoted mother. Most children are

too young at five years of age to take up primary school work with profit. At this age bodily activity is an essential condition of proper development. Very young children derive greater injury than benefit from the neccessary restraints and formal occupations of the school. It is far better that children should enter school at six than at five. At an earlier period only the home or the kindergarten can provide suitably for their needs.

COURSE OF STUDY.

Early in the year, grade meetings were held and the year's work was planned with as little departure from that of the past year as was consistent with a uniform plan. The ideal course of study demands the greatest possible freedom in method and in order of presentation of topics, for each teacher. In practice, it will be advisable for some time to come to make the course somewhat definite, laying out the work for each term, and determining to some extent the order of topics. This development of the course should proceed from the present work of the schools and must be based upon it, in the interest of teachers and pupils alike. Changes should be made gradually and time given for readjustment to new conditions.

HIGH SCHOOL.

The Master of the high school reports a year of steady progress and of earnest work on the part of all the teachers and most of the students. His recommendations include the addition of physical geography and mechanical drawing to the general courses. With these recommendations I am in hearty accord. The high school should provide adequate preparation for the college and the technical school, but the importance of the preparatory course should not be unduly emphasized. The general courses reach by far the greater number of pupils and should be strengthened and broadened.

The commercial course is of but two years in length. I recommend the addition of a third year to this course as desirable, and hope this matter may receive the early consideration of the Committee. The several courses of the high school are given in the appendix to this report.

It is interesting to note that the last graduating class is represented in the freshman classes of Harvard and Boston Universities, and of Tufts, Smith, Mt. Holyoke, and Boston College.

GRAMMAR SCHOOLS.

The Masters' reports deplore the frequent loss of our best teachers who seek more remunerative positions in other communities. I am aware that the Committee would gladly remove this source of detriment and loss to the schools if such a step seemed warranted.

The need of modern indoor sanitary arrangements is also strongly presented. This need is strongly felt by the Committee and by many parents and other citizens interested in the public health of the town, and I trust that steps will be taken to connect with the sewer system all school buildings situated on or near the lines.

The matter of the proper sanitation of schools is a most important one. We have recently passed through a period of grave danger to the pupils of the Greenwood district, and, in fact, to the children of the entire community. Only the prompt and efficient action of the Board of Health, through their agent, Mr. Lovell, prevented the rapid development of an epidemic of diphtheria. In connection with this subject, I wish to recommend for your consideration the plan of limited inspection of the schools by a competent physician. This idea of school inspection is not by any means a new one. It has been for some years an established feature of many city school systems. On account of the item of expense, I recommend only a modified form of

inspection, limited to such times and such schools as are in danger of infection from known cases of infectious disease. In my opinion such an arrangement could be made with a local physician as would add greatly to the security of school attendance without undue expense.

VOCAL MUSIC.

This department is in excellent condition, is well organized, and is rapidly developing under the direction of the Supervisor, Mr. B. Harold Hamblin, whose work is to be highly commended, as is that of the teachers whose earnest and intelligent efforts to carry out his plans are meeting with well earned success. If vocal music were taught solely as an accomplishment its importance as such would entitle it to an honorable place in the public schools. But it is not thus limited in its scope. It is a valuable means of government and discipline, and of moral and aesthetic education. The moral tone of schools in which music is seriously taught is distinctly higher than in those schools in which there is no music deserving the name. The proper rendering of well chosen songs is of untold value as a means of inculcating patriotism and all the nobler sentiments and emotions which it is so difficult to reach by methods of direct instruction.

Following is the report of the Supervisor :

REPORT OF SUPERVISOR OF MUSIC.

MR. FRANK O. DRAPER, Supt. of Schools.

DEAR SIR :—It has been a source of much satisfaction to note the progress the schools have been making in music during the past year. Many parents have informed me of the interest and intelligence their children have developed in music. Such interest has been quite general among the classes and together with the kindly feeling and splendid efforts of the teachers, my work has been thoroughly enjoyable.

Commencing in October, '98, I formed a class for teachers, in music as applied to teaching in our public schools. All of the teachers were invited to attend, free of any expense. The class has met at my rooms in Plummer Block once in every two weeks, and most of the teachers availed themselves of the opportunity. My aim has been to assist the teachers to a uniform method of teaching the problems in music. During the latter part of December a test examination in music was given to the six upper grades with gratifying success.

Pupils are marked in music as in drawing, and it has certainly strengthened my department. I take pleasure in expressing my appreciation of the support given to me by the Superintendent of Schools, the School Committee and the masters and teachers.

Yours respectfully,

B. HAROLD HAMBLIN.

Hyde Park, Feb. 3, '99.

DRAWING.

Freehand drawing has been made uniform in plan throughout the elementary schools by the adoption of a standard series of drawing books and manuals. This subject is, on the whole, in the least satisfactory condition. A special supervisor is an essential to the best results in drawing as in music. Until the services of such a supervisor are secured the books in use must be depended upon for guidance. A beginning has been made in the study of type forms by the teachers, and this elementary preparation for correct teaching will be continued during the year.

The importance of drawing need not be urged here. No department of school work has a more direct value for the pupils, while educationally it has also very great value as the only representative in our schools of that important phase of modern education to which the name "manual

training" is applied. Manual training is not merely hand training. It is rather the exercise and development of the motor areas of the brain upon whose activity and capacity must depend the future bread-winning power of a great number of our pupils. Neglect of this important side of education is fatal to the great aim of the public schools—symmetrical development of the powers of the child.

READING AND SPELLING.

One of the most pressing needs of the elementary schools is a liberal supply of books for reading. One set, sufficient for a division, has been placed this year in each room. As a different set is placed in each school they may be exchanged and thus give a considerable range of reading. I recommend that additional sets be purchased when this is possible.

Much attention is given to the teaching of reading in the lower grades, and the results obtained by a considerable number of our teachers are excellent. At my request a special teacher representing the author of the series of readers and of the method of teaching reading used in our schools for the past two years, visited the schools and tested the several classes, giving, in connection with these visits, a series of addresses to the teachers. In accordance with her recommendations the phonic work of the first year has been modified and reduced in quantity, admitting the use of supplementary reading matter in the latter part of the year.

By the method of teaching reading employed in our primary grades, the pupils are led from the first to observe the structure of each new word, and to refer to their respective classes words susceptible of classification. This analysis and classification of words may be made an effective aid to the mastery of spelling, special attention being given to the words which fall outside the classes formed. In addition to this process of word study, which is this year extended through the eight elementary grades, the teachers in all

grades are compiling lists of words used by the pupils in their daily work. These lists will receive constant additions, and will soon embrace most of the words in the pupils' vocabulary which present difficulties in spelling. To these words may be added a considerable number of words commonly found in spelling books which will be met later in general reading.

The spelling of English words is, for most persons, a difficult art, and is of sufficient importance to be given a prominent place throughout the elementary course. The graduates of our grammar schools should show excellent ability in correct spelling of all words commonly employed in oral speech.

REPORT OF TRUANT OFFICER.

MR. FRANK O. DRAPER, Supt. of Schools.

DEAR SIR:—Please find below an account of my services as Truant Officer for eight school months, ending Dec. 31, 1898 :

Total number of cases investigated,	183
“ truants,	39
“ prosecuted,	1
“ committed,	1
“ placed on probation,	1
“ absent with parents' permission,	76
“ absent on account of sickness,	39
“ absent on accr. of lack of clothing,	12
“ removed from town,	3
“ attending private schools,	8
“ absent from other causes,	6

On January 19th I arrested Michael Cannon, 13 years of age, for habitual truancy. January 20, at Dedham, Judge Grover sentenced said Cannon to six months in the Truant School at Walpole.

Respectfully submitted,

HENRY V. HARWOOD,

Hyde Park, Dec. 31, 1898.

Truant Officer.

REPORT OF VACATION SEWING SCHOOL.

The sewing school for the summer of 1898, commenced Tuesday, July the twelfth, with an attendance of twenty-five pupils. At the next session the attendance increased to thirty-three and the next to forty-two, necessitating a division of classes. The school was divided into three classes, the division based on age and ability. The older girls made samplers which included if finished all the different kinds of stitches, patches, hems. etc., that one would need to know in order to do plain sewing. The younger girls made work aprons which included the plain stitches, running, hemming, etc., while the intermediate class learned to darn stockings and linen and to make buttonholes.

Twenty-three sessions were held, the younger class having their session in the morning and the two older classes in the afternoon, giving each child, if present every session of their class, fourteen sessions. Seventy children attended and the average attendance for one day was thirty-five, making the per cent. of attendance fifty. The smallest number present at any session was ten, and the largest number thirty-nine.

At the close of the summer's work an exhibition was held and parents and friends of the pupils attended it.

KATE FARLIN.

THE PUBLIC AND PUBLIC EDUCATION.

Education is not a matter of schooling, merely, nor is the teacher the only educator of youth. The child's education for good or ill is perpetual. It is not a matter of time or place. The education of the intermission is, many times, more potent than that of the school session, and the one may neutralize the other as many a discouraged teacher can testify. It is of supreme importance that the distinctively educative forces of the community should work in complete

harmony, and this result can be brought about only by intelligent cooperation. The reception to our teachers and parents recently arranged and conducted by the Maternal Association of the town was a long step in the right direction. To continue the work thus well begun I have publicly and privately advocated the formation of a permanent association of citizens of Hyde Park interested in the great work of the education of its youth; and this suggestion is meeting the approval of many public spirited men and women.

In conclusion, allow me to express my appreciation of the many courtesies extended to me personally, and of the excellent "school spirit" which characterizes Hyde Park and its School Committee as thoroughly as it does its public schools.

Respectfully submitted,

FRANK O. DRAPER,

Superintendent.

APPENDIX.

HYDE PARK HIGH SCHOOL.

GRADUATING EXERCISES

OF THE

CLASS OF '98,

AT

WAVERLY HALL,

Wednesday Evening, June 22, 1898.

AT EIGHT O'CLOCK.

PROGRAMME.

- 1 "Revel of the Leaves," *Veazie*
High School Chorus.
- 2 *SALUTATORY, ... Miss Burgess
- 3 ESSAY, Culture is Power, ... C. W. Farwell
- 4 ESSAY, Two Extremes, ... Miss Paine
- 5 DECLAMATION, "Patriot and Traitor," *Lippard*
F. P. Rafter.
- 6 ESSAY, ... † Miss Hanscom
- 7 ESSAY, ... † L. Heydacker
- 8 "And the Glory of the Lord," from "the Messiah," *Handel*
High School Chorus.
- 9 ESSAY, Power of the Ideal, ... Miss Davis
- 10 RECITATION, "The Legend of the Organ Builder," *Dorr*
Miss Ambrose.

CLASS ODE, 1898.

WORDS BY MARY B. TOWER.

MUSIC BY EDWARD K. ELLIS.

Ninety-eight brings to its close
Our High School-life's career,
And now we sing our last farewell
To the class we hold so dear.
Regrets that these school days are o'er
Fast fill our hearts to-night;
O may the future of our class
Be filled with radiance bright.

Life with its hours, its days, its years,
Is calling for our best,
In higher aims, in noble works,
Our God will do the rest;
Though Glory only few acquire,
Yet all of us can aim,
To live a life of nobleness,
Far preferable to fame.

Glory in your victories,
Despair not in defeat;
Life holds its many problems,
Which every one must meet;
But wrapped in wisdom's mantle,
Surely we must win,
If our aims are always worthy,
And free from taint of sin.

We know that tears and partings
Will often times be given,
To show with clearer vision,
The better way to Heaven.
But classmates dear, if we must part,
What e'er betides our fate,
We'll ever cherish in our hearts,
The class of Ninety-eight.

Handwritten musical score for three staves, likely for a string quartet. The top staff is in treble clef, the middle in alto clef, and the bottom in bass clef. All staves are in G major (one sharp). The music features various rhythmic patterns, including eighth and sixteenth notes, and rests. Performance markings include "cresc. Allargando...", "p", "f", and "mp".

HYDE PARK GRAMMAR SCHOOL.

GRADUATION EXERCISES

OF THE

CLASS OF '98,

AT

WAVERLY HALL,

Thursday Evening, June 23,

AT 7.30 O'CLOCK.

INSTRUMENTAL MUSIC BY THE GREW SCHOOL ORCHESTRA.

MR. GEO. E. M. DICKINSON, Instructor.

First Violins, Misses Simmons, Paine, E. and A. Rollins.

Second Violins, Misses Chase, Gould, Burgess, Masters Drechsler and Tibbets.

Clarionets, Masters Stackpole, Bass and Orcutt.

Flute, Master Baessler. Cornet, Master Post.

Cellos, Masters Hibbert and Stockbridge.

Bass, Miss Bertha Simmons. Piano, Miss Parkhurst.

Drums and Traps, Master Carberry.

PROGRAMME.

PART I.

MARCH, "King Bacchus," *R. Gruenwald*
Orchestra.

RECITATION, "Abraham Lincoln," James Edmund Gibbon

RECITATION, "The Small Boy Handicapped," *Eugene Field*
Minnie Barbara Weston.

CHORUS, "The Wanderer's Greeting." *Abt*
Classes.

DECLAMATION, "Touissaint L'Overture."	Phillips
Alonzo C. Dunbar.	
ORIGINAL ESSAY, "Spain and Her Colonies,"	Arthur Lodge Bishop
CHORUS, "Charming Little Valley,"	Roberti
Classes.	
COMPOSITION "Alaska."	Girls of the Fairmount Class

 PART II.

SELECTION, "Fra Diavolo,"	Auber
Orchestra.	
DECLAMATION, "The Power of Habit,"	Gough
Claude Hartwell Adams.	
COMPOSITION, Student Life in the Graduating Class,	
Florence Elizabeth Spaans.	Greenwood.
CHORUS, "In Our Boat,"	Cowen
Classes.	
RECITATION, "Eulogy on America,"	Ralph Joseph Thompson
RECITATION, Voyage of the Good Ship Union,	Holmes
Marcia Anna Parkhurst.	
DECLAMATION, "Massachusetts Volunteers,"	Master Albert Holzer
TWO STEP, "America up to Date,"	J. S. Davis
Orchestra.	
AWARDING DIPLOMAS,	E. I. Humphrey
CHORUS, "Star Spangled Banner,"	F. S. Keyes

 GRADUATES.

DAMON.

Merton Ridgway Alden,	Catherine Anna Statia Christy
Julia Emma Daggett,	Mary Patience Daly,
Alonzo Corness Dunbar,	Patrick Joseph Feeney,
Theresa Jane Fenton,	Mary Helena Hartnett

A TEACHERS' INSTITUTE

UNDER THE DIRECTION OF THE

STATE BOARD OF EDUCATION

WILL BE HELD IN THE

HIGH SCHOOL BUILDING, HYDE PARK,

MONDAY, OCTOBER 31, 1898.

PROGRAMME.

- 9.00 A. M. Opening Exercises.
- 9.10 A. M. The Mutual Relation of Educational Forces,
SAMUEL P. DUTTON, Supt. of Schools, Brookline
- 10.10 A. M. Story Telling, (Primary Section),
MRS. ELIZABETH Y. RUTAN, Boston
- 10.10 A. M. Drawing, (Grammar Section),
L. WALTER SARGENT, Ass't State Supervisor of Drawing
- 10.10 A. M. Geometry, (High School Section),
JAMES W. MACDONALD, Agent of the Board
- 11.10 A. M. The Human Body, (Primary Section),
MRS. ELLA B. HALLOCK, New York
- 11.10 A. M. Language and Grammar (Grammar Section),
JOHN T. PRINCE, Agent of the Board
- 11.10 A. M. Physics (High School Section),
J. C. PACKARD, High School, Brookline

INTERMISSION.

(Lunch will be provided at small cost for those who desire it.)

- 1.15 P. M. Drawing (Primary Section,) . . . MR. SARGENT
- 1.15 P. M. Geography (Grammar School Section),
PHILIP EMERSON, Principal of Corbett School, Lynn

- 1.15 P. M. Latin (High School Section), . . . MR. MACDONALD
2.15 P. M. Language, (Primary Section),
MISS SARAH L. ARNOLD, Supervisor of Schools, Boston
2.15 P. M. History (Grammar Section),
GEORGE I. ALDRICH, Superintendent of Schools, Newton
2.15 P. M. History (High School Section),
MISS ANNA B. THOMPSON, Thayer Academy, Braintree
3.15 P. M. Elements of Geography, (Primary Section.) MR. EMERSON
3.15 P. M. Physiology, Hygiene and Temperance,
(Grammar Section), . . . MRS. HALLOCK
3.15 P. M. English Literature, (High School Section),
ANDREW J. GEORGE, High School, Newton

Members of School Committees, Superintendents of Schools and all others interested in education are cordially invited to attend the meetings.

FRANK A. HILL,

JOHN T. PRINCE,

Secretary of the Board.

Agent of the Board.

PROGRAMME-Supervisor of Music.

HIGH SCHOOL COURSES OF STUDY.

FOUR YEARS' COURSE.

GENERAL COURSE.	SCIENTIFIC.	CLASSICAL.
<i>First Year.</i> Algebra (year) Eng. Comp. (3-5 year) Latin (year) Greek and Roman History (2-5 year) Physiology (one period per week)	Same	Same
<i>Second Year.</i> Geom. (plane) (year) Caesar (year) Eng. Hist. 1-2 year. Civil Govt. 1-2 year. *Botany (2-3 year)	Geometry Caesar or Typewriting or Stenography Eng. Hist. 1-2 year Civil Govt. 1-2 year Botany 2-3 year	Geometry Caesar Greek *Eng. Hist. 1-2 yr. *Civil Govt. 1-2 yr. *Botany 2-3 year
<i>Third Year.</i> Physics Rhet. & College Eng. Cicero or Ger. or Fr. Advanced Algebra	Physics Rhet. and Col. Eng. French or German Advanced Algebra First three or last three required	Rhet. & Col. Eng. Cicero Anabasis French or German
<i>Fourth Year.</i> Chemistry or Vergil Gen. Hist. & Col. Eng. French or German	Chemistry Gen. Hist. & Col. Eng. *Astronomy 1-3 year Solid Geometry U. S. Hist. 1-3 year *Trigonometry	Gen. His. & Col. Eng. Vergil Iliad French or German

* Optional.

In all courses the other studies being pursued by members of the class can be elected by those wishing to do more work when the recitation program can be arranged to allow it.

NOTE.—In the first two years a pupil can omit Latin, taking instead Commercial Arithmetic in the first year and Stenography or Zoology in the second year, and follow the Scientific Course for the third and fourth years.

BUSINESS COURSE.

First Year.

Lockwood's English Composition, 3-5 year.

Greek and Roman History, 2-5 year.

Algebra, year.

Commercial Arithmetic, year.

Physiology, one period per week throughout the year.

Second Year.

Book-keeping, 2-3 year.

Commercial Law, 1-3 year.

English History, 1-2 year.

Civil Government, 1-2 year.

Typewriting, a year.

Stenography, year.

PUPILS PERFECT IN ATTENDANCE.

HIGH SCHOOL.

Florence Arentzen, Chester Farwell, Carrie C. Higbee, Florence Fowle, Robert C. Fiske, Fred Y. French, Jr., Louis Heydacker, Edgar Holmes, Elsie Greenwood, Clara Hodgkins, Bertha Moorar, John D. Post, Josephine Wasserboehr.

DAMON SCHOOL.

First Term :— Mabel Blood, Albert Blood Gertrude Dunbar, Carrie Stevens, Louisa Dunbar, William Wood, Claire Paige, Harold Shreve.

Second Term :— Albert Blood, Frank Lawrence, Mary Morgan, Eva Isherwood, Willard Lawrence, Fred Shreve, Harold Shreve.

Third Term :— Alonzo Dunbar, Edna McKeon, Mabel Blood, Albert Blood, Michael Mack, Edmond Slafter, Harry Ray, James Piard, Willard Lawrence, Mabel Morgan, Harold Shreve.

Pupils Perfect in Attendance for the Year :— Albert Blood, Harold Shreve.

HEMENWAY SCHOOL.

First Term :— Henry Hardy.

Second Term :— Clarence Stewart, Henry Hardy.

Third Term : Clarence Stewart, Harry McArdle.

GREW SCHOOL.

First Term :— Edna Moseley, Ella Rollins, Claude Adams, Fritz Armstrong, Arthur Armstrong, Arthur Bishop, William Carter, Fred Crowley, Lewis Little, Howard Orcutt, Harry Stackpole, Clarence Tucker, George Killam, Bernice Chittick, Mary Eliot, Marjorri Mitchell, Helen Newell, Amy Rollins, Fanny Rooney, Meriam Loder, William Lange, Harold Lingham, Charles O'Connell, William Boettcher, William Jank, Albert Beal, Addel Meister, Annie Kupke, Pearl Sproul, Avis Wallace, Frank Downey, Lucius Weymouth, Harold Lockwood.

Second Term :— Helen Aborn, Helen Burgess, Margaret Crocker, Ida Wetherbee, Maybelle Lovell, William Aborn, William Carter, Fred Crowley, Howard Orcutt, Helen Newell, Amy Rollins, Fannie Rooney, Ethel Smith, Edith Webster, Lillian Wyman, Meriam Loder, Charles O'Connell, Walter Shroeder, John Towne, Flora Holtham,

Chester Webster, William Curley, Carle Meister, Annie Kupke, Avis Wallace, Pearl Sproul, William Geyer, Ruth Crowell, Lucius Weymouth, Ray Howe, Ralph Benton, Elbert Little, Jennie Snellgrove, Gretta Snellgrove, Helen Rooney, Robert Jank, Raymond Tuck, Chester Tucker, Eben Fisher, Addel Meister, Lena Erler, Bertha Schroeder, Grace Sandow.

Third Term:—Helen Aborn, Gertrude Benton, Helen Burgess, Margaret Crocker, Cora Knapp, Mirian Lovering, Maybelle Lovell, Edna Moseley, Claude Adams, Arthur Armstrong, Fritz Armstrong, Henry Baessler, Fred Crowley, Ralph Doane, Lewis Little, John Olson, Howard Orentt, James Quealy, Harry Stackpole, Clarence Tucker, Bernice Chittick, Marjorie Mitchell, Helen Newell, Fannie Rooney, Ethel Smith, Mabel Tourtellotte, Edith Webster, Lillian Wyman, Harold Lingham, Edith Manley, Charles O'Connell, Walter Schroeder, Willie Taylor, Mary Knapp, Marion Beal, Flora Holtham, Essie Marks, Marian Nunn, William Jank, Chester Webster, William Curley, James Sweeney, Annie Kupke, Avis Wallace, Ella Wyman, Arthur Wetherbee, Angeline Creaser, Mildred Collyer, Fred Crossman, William Geyer, Fred McDougall, Mildred Moltedo, Helen Rooney, Gretta Snellgrove, Clifford Post, Robert Devine, Harry Costley, George Carter, Robert Jank, Edgar Noyes, John Rooney, Chester Tucker, Grace Manley, Leo Marks, Harold Smith, Willie White, Lena Erler, Mabel McConnell, Bertha Schroeder, Ruth Humphrey, Alois Schmalz, Allan Kiley, Adolph Vietze, Howard Bibbins, Alice Shewell.

GREENWOOD SCHOOL.

First Term:—George Corbett, Laura Corbett, Albert Holzer, Nella Kraus, Wilfred Kraus, David Neilson, Jr., Marian Topham, Elsie Downie, Louis Gerry, Laura Googins, Alice Graham, Chester Greenlaw, Bessie Gunn, Anna Riley, Lucy Fitton, Maud Hersey, Lizzie Plummer, Arthur Anderson, Albert McIntyre, Daniel Mahoney, Walter White, Victor Wigglesworth, William Wright, Foster Cass, John Chamberlin, Charles Dame, Clara Grant, Emily Halzer, Roberta Kraus, Ruth McGregor, Charles Wigglesworth, William Corbett, James Cass, Walter Dame, Josie Fisher, Frank Gunn, Moses Long, James McPherson, Annabel Phinney, Chester Topham, Sidney Andrews, Edith Anderson, Sophora Bliss, Walter Carlton, Thomas Cass, Carl McConnell, Theodore Donahoe, Hattie Gunn, Arthur Neilson, Harriet Pammer, John Roman, Edgar Noyes, Robert Clapp, Mildred Howes, Marian Googins, Jessie McVitae, Frank Cass.

Second Term:—Nella Kraus, Minnie Weston, Bessie Gunn, Josephine Kiander, Anna Riley, Harry Buck, Mark Clogston, George

Greenlaw, Florence Greenlaw, William Bodwell, Finlay Bryce, Charles Norwood, Allan Cameron, Emily Holzer, Mabel Jeffers, Lester Reid, Laura Crudgington, Ella Gerry, Annabel Phinney, Thomas Cass, Earl Simpson, Jessie McVittae, Frank Cass.

Third Term:—George Corbett, Helen Davis, Lucile Gravestein, May Hammond, Charles Howes, Nella Kraus, Colin Mackenzie, Chella Perkins, Chester Rausch, Myra Stickney, Minnie Weston, Annie Caffin, Helen Courtney, Alice Graham, Bessie Gunn, Josephine Klander, Rose Odell, Anna Riley, Carrie Strout, Clement Bradley, Harry Buck, Rae Cowperthwaite, George Greenlaw, Carabel Gazan, Jennie Lockman, Mary Mogan, Lizzie Plummer, Genie Sargent, Edith Waters, Albert McIntyre, Daniel Mahoney, Charles Norwood, Frank Savage, John Savage, Ralph Strout, Walter White, Victor Wigglesworth, Foster Cass, Mar Donahoe, George Greenwood, Gina Mortonson, Mary Neilson, Clarence Pinder, Margaret Townsend, Charles Wigglesworth, George Anderson, Laura Crudgington, William Corbett, Josie Fisher, Frank Gunn, James McPherson, Harry Peck, Annabel Phinney, Alma Pommer, Anna Rausch, Frank White, Edith Anderson, Thomas Cass, Dora Ferguson, Jessie Grant, Hattie Gunn, John Roman, Olive Story, Jessie McVittae, Bertha Elwell, Jessie Googins, Bertha Handley, Lizzie McLean, Willie McDonough, Frank Cass, Glee May, Edna Wilcox, Arthur White, Wilfred Kraus.

AMOS WEBSTER SCHOOL.

First Term:—Janet Brandage, Franklin Hillier, Harry Lord, Lillian Lockman, Alfred Wheeler, Morris Goldberg, Olga Mortonson, Arthur Savage, Edith Smith, Clarence Somes, Myron Haskell, Sydney De Young, Allan Gray, Harold Hill, Clifford May, May Bryce, Lilly Watson, Lyde Partridge, Mary Strachan, Alice Spear, Thomas Bryce.

Second Term:—Howard Fogg, Harold Hill, Florence Adler, May Bryce.

Third Term:—Bernard Courtney, Howard Fogg, Lillian Lockman, Olga Mortonson, Florence Newell, Kitty Riley, Edith Smith, Alfred Wheeler, Clarence Somes, Stanley Wheeler, Herbert Ford, Allie Strachan, Florence Adler, May Bryce, Ellinor Clogston, Frances McIntyre, Morton Mortonson, Ellinor Somes, Mary Strachan, Walter McLoon, Warren Smith, Douglas Strachan, Dorothy Ticknor, Ethel Jones, Sarah Dyer.

BUTLER SCHOOL.

First Term:—Lester A. Cloutman.

Third Term:—Alice J. Anderson.

FAIRMOUNT SCHOOL.

First Term:—Ora Chadbourne, Alden Cleveland, Arthur Crowe, Ethel Gibson, Wallace Gibson, William Haigh, Maude Howe, Etta Milne, John Tileston, Robert White, Ella Nims, Elsie Proctor, Fred Paine, Mary Wilkinson, Alexander McAfee, Walter McAfee, Bessie Robinson, Harold Davie, Terrence Marron, Maggie Keane, Herbert Scott, Priscilla Alden, George Cunningham, Mabel Fratus, Ellery French, Lizzie Hall, Francis Hammatt, Harry Hinds, William McKelligan, Elinor Roberts, Inez Burbridge, Florence Damon, John Fratus, Ruth Hope, Royal Sibley, Alan McIntire, Michael Pezzine, Mildred Perry, Mildred Rogers, Ernest Richardson, Fannie Sprague, Harvey Wasserboehr, Andrew Cleveland, Grace Forsythe, Kenneth McAskill, Faustina Davis, John Jones, William Mahoney, Harriet Wasserboehr, Minna Hope, Miriam Preston.

Second Term:—Cora Boynton, Margaret Dunn, Edna Felch, Ellery French, Francis Hammatt, Bertha McIntyre, Fred Maurer, Winnie Milne, Mary Muthern, John Scrivens, Annie Scott, Altha Berry, Ora Chadbourne, Alden Cleveland, Ethel Gibson, Prescott Hayward, William Haigh, Edith Hall, Clifton Hope, Maude Howe, John Tileston, Robert White, Ethel Fratus, Alexander McAfee, John McKelligan, Herbert Scott, Mary Maurer, Joseph Proctor, Helen Howes, Agnes Hurley, Joseph Lodge, Frank Maurer, Freddie Pazini, John Thomson, Mary Wilkinson, Edith Wilbur, Inez Burbridge, Florence Damon, Prescott Emerson, Mabel Hamilton, Reuben Hamilton, Clary Jackson, Lucretia Mayo, Mildred Rogers, Harvey Wasserboehr, Percy Boyd, Walter McAfee, Minna Hope, Kenneth McAskill, Miriam Preston.

Third Term:—Ora Chadbourne, Alden Cleveland, Prescott Hayward, Laura Hall, Winnie Milne, William Haigh, Altha Berry, Nellie Beard, Ethel Gibson, Prescott Hayward, William Haigh, Clifton Hope, Maude Howe, Dean Preston, Paul Tyler, Robert White, Pearl Wheeler, Fred Wilbur, Alexander McAfee, Walter McAfee, Charles Alden, Ray Alexander, Harold Chadbourne, Helen Howes, Kenneth MacIntyre, Percy Worrick, Andrew Cleveland, Miriam Preston, Alfred Maurer, Mary Price, Grace Kerwin, Joseph Lodge, Charlie Rich, Percie Worrick, Mildred Weston, Frank Hurley, Percy Boyd, Arthur Rogers, Mabel Farley, Mary Fiske, Maggie Keane, Mary Maurer, Bennie Wolfe, Minna Hope, Laura Hall.

Perfect Attendance for the Year:—Andrew Cleveland, Minna Hope, Miriam Preston, Alexander McAfee, Walter McAfee, Robert White.

THIRD ANNUAL REPORT
OF THE
Board of Sewer Commissioners
OF THE
TOWN OF HYDE PARK
FOR THE
YEAR ENDING JANUARY 31, 1899.

HYDE PARK:
PRESS OF THE HYDE PARK GAZETTE.
1899.

ORGANIZATION.

FERDINAND A. WYMAN, Chairman

DAVID PERKINS.

WILLIAM U. FAIRBAIRN.

RICHARD M. JOHNSON, Clerk.

A. D. NICKERSON, Engineer.

GEORGE A. KIMBALL, Consulting Engineer.

BOARD OF SEWER COMMISSIONERS' REPORT

TO THE CITIZENS OF HYDE PARK :

Your Board of Sewer Commissioners is pleased to report that they have had the services of the same engineers as in the previous year,—Mr. A. D. Nickerson as Engineer to the Board and Mr. George A. Kimball, member of the Metropolitan Sewer Commission, as consulting Engineer.

By vote of the Town in Town Meeting of June 22, 1898, a loan of \$100,000 for the construction of sewers was authorized in pursuance with Chapter 287, Acts of 1896. Your Board have to report that they have not yet taken steps to issue the bonds provided for under that Act, and that the necessity of a vote therefor did not arise during the year past; but that such issue will duly be made when needed. Also, by vote of the Town in Town Meeting, March 24th, 1897, the money to be obtained from time to time from the assessments on account of the cost of sewers to owners of estates benefited, is to be expended under the supervision of your Board for the construction and maintenance of the sewerage system.

Under the supervision of your Board there has been expended for the year ending January 31st, 1899, \$14,134.42 as per vouchers on file and exhibited in table No. 1, annexed to this report. The value of stock on hand is \$8,803.00 as shown in table No. 2, annexed to this report. There remains due to contractors the sum of \$218.15.

Your Board reports in its third annual report the construction of 4,351 feet of sewers. Aside from one extra-

ordinary section, the average depth has been 8.8 feet. The details of that construction are as follows :-

STREET.	FROM.	TO.	SIZE.	LENGTH.	AV. DEPTH
Warren Av.	Highland St	Norway Pk.	8 in.	310	10.3
Norway Pk.	Warren Av.	Summit St.	6 in.-8 in.	700	9.5
Highland St.	Williams Av.	Pond St.	8 in.	294	9.0
Walnut St.	Metro. Sewer.	Fairmount Av.	8 in.	220	7.2
"	Hyde Pk. Av.	summit	8 in.	255	9.7
Everett St.	"	Harvard Av.	6 in.	280	8.7
Business St.	Barry St	Glenwood Av.	8 in.	1292	8.1
				3351	8 8
Hyde Park Av. at Readville,				20 in.	1000
Total,				4351	

The most important work accomplished during the past year, it will be noted, was at Readville. The railroad improvements there were of such a nature that it was imperative for your Board to construct a portion of its sewer in advance of the changes to be made in Hyde Park avenue. Plans were made at once for the construction of about 1000 feet of 20 inch sewer. Upon due advertisement bids were received and awarded January 18th, 1898. Great difficulties were encountered in this work, as part lies under 40 feet of earth and part under masonry abutments 30 feet high. Special pipe and reinforcement of concrete was found necessary. The consulting Engineer was much advised with upon this work.

The plans of your Board in relation to sewer construction other than that required by this special exigency have been made largely in deference to the written recommendations of the Board of Health. In accordance with these your Board has deemed it best to construct sewers in the streets above mentioned, viz.: Warren avenue, Norway Park, Highland street, Walnut street, Everett and Business streets; and the construction of a sewer in Child street is under contract. The contract for all of the above work was awarded after due advertisement.

Your Board would further report that the work next

contemplated is in the Page street district, the Board of Health having asked for sewers in this area. A trunk sewer is planned which must in some portions cross private lands. Construction will not, however, be begun until options for these easements at reasonable rates shall be obtained. The design includes a sub-drain with permanent discharge into the Neponset river. This, as has been proved the case everywhere in the town, will have a decided effect in relieving this area by drying out the low ground. The Board also looks forward to the relief of the Clarendon Hills district in connection with the proposed Metropolitan High Level Gravity Sewer.

Your Board would urge upon all citizens the importance, from a sanitary point of view, of connection with the system of sewers. As announced in our second annual report :—

“House connections with common sewers and all other construction of particular sewers are made under the superintendence of your Board. Section 14 of Chapter 287 authorizes the Board to prescribe rules and regulations for connecting estates and buildings with main drains and sewers. Rules and regulations have accordingly been formed and promulgated by your Board. Printed copies of these rules and form of application for connection with the common sewers can be obtained at our office, or will be sent by mail upon request.”

During the year just ended 116 house connections have been made aggregating 6090 feet in length. The total number made to date is 199; total length, 10,412 feet. The average cost per lineal foot has been 60 cents, exclusive, however, of man-holes and rock excavation. Your Board keeps this work under its strict supervision. It is estimated that 1475 persons are now served by our system of sewers.

Your Board would call the special attention of citizens to the assessment upon owners of estates benefited by the sew-

erage sysem soon to be completed. Under Chapter 287, Acts of the Legislature for the year 1896, Section 6, the Town of Hyde Park shall by vote determine what part of the cost of the sýstem of sewers the Town shall pay; and the remaining cost of the system shall be assessed to the owners of the estates benefited upon a proportional basis of the average cost estimated by the Board of Sewer Commissioners. Such assessment shall be paid to the Collector of Taxes of the said Town within three months after notice, unless written request by the owners shall be filed with the said Board within three months to apportion the said assessment into proportional parts not exceeding five, with interest at six per centum per annum.

In Town Meeting, March 24, 1897, the Town of Hyde Park voted to pay one-half of the cost of the said system of sewers.

The further attention of citizens is directed to a vote of the Board of Sewer Commissioners, January 25, 1899, whereby pursuant to the said Act the assessment of the remaining cost of the said system of sewers is to be made up as follows :

The fixed uniform rate pursuant to Chapter 287 of the Acts of 1896 and the vote of the Town of Hyde Park passed March 24, 1897, to be assessed upon estates benefited, is hereby established at 47 cents upon each foot of frontage on any street or way in which a sewer has been constructed, and 5 mills upon each square foot of area within a fixed depth of seventy feet from such street or way, the said rates having been so found and determined, and based upon the estimated average cost of all the sewers comprising said system.

Proper forms for the administration of this assessment are now being prepared by your Board, and written notice of the assessment will in due time be served upon the owners of all estates benefited.

In conclusion your Board wish to assure the citizens of Hyde Park that upon the experience of other towns, upon the information already obtained in three seasons' work in this town, and upon estimates at hand, it is believed that as the system nears completion the average cost will be materially less than it is at present.

FERDINAND A. WYMAN,
DAVID PERKINS,
WILLIAM U. FAIRBAIRN,
